BUDGET SUMMARY

This page intentionally left blank

BUDGET GUIDE

The City's budget is an important policy document. It serves as an annual financial plan, identifying the spending priorities for the organization. The budget is used to balance available resources with community needs, as determined by the City Council. It also serves as a tool for communicating the City's financial strategies and for ensuring accountability.

The City's operating budget is a plan for one specified fiscal year. The fiscal year for this budget begins on July 1, 2019 and ends on June 30, 2020.

o Budget Development

The City Manager is responsible for the development of a proposed budget for consideration by the City Council. The budget development process begins in January with a midyear update of the current year's budget and the General Fund revenue forecast, which establishes a general framework under which to develop budget guidelines for the upcoming fiscal year.

Establishing the base budget involves taking the final budget from the previous year, reducing it for any one-time expenditures, and adjusting for contractual obligations in accordance with established labor agreements and other long-term contracts. Adjustments are also made for other anticipated increases in specified line items that affect multiple departments, e.g., fuel costs. All programs funded through charges back to user operations (i.e., internal service funds, such as the central garage) are reviewed in order to establish rates for the coming fiscal year.

The base budget is then provided to each department. Departments review their base budget and prepare augmentation requests to fund current service levels and proposed goals consistent with the Council's adopted Strategic Plan for the coming year. Departmental budgets are submitted to the City Manager's Office for review.

Once the proposed budget is developed, it is presented to the City Council and copies are made available for public review at multiple locations and via the City's website. Two public budget study sessions are held with the City Council to review the budget and solicit public input. A public hearing is held to adopt the proposed budget.

Budget Control

Since the budget is an estimate, from time to time it is necessary to make adjustments to fine tune the line items that comprise it. Various levels of budgetary control have been established to maintain the budget's integrity. The City Manager has the authority to make transfers between accounts, usually based on

recommendations from the various departments. Whether a transfer is within a fund or between funds, that authority must be exercised taking into consideration funding source compatibility. Other levels of authority are spelled out in the City's Purchasing Policies and Procedures. Where an appropriation requires an increase that cannot be supported by a transfer, City Council authorization is required.

BUDGET CALENDAR FY 19/20

Month	Action
January	Mid-Year budget review
	Personnel allocations due from departments
	Update General Fund forecast and review
February	Update Internal Service Fund budgets and rates
	Develop budget worksheets
March	Budget worksheets issued to departments
April	Budget submittals due from departments
	Budget meetings conducted with departments to review submittals
May	Budget team and City Manager review issues
, may	Update General Fund forecast
	Prepare draft budget
	Conduct one public budget study session with City Council
June	Conduct one public budget study session with City Council
	Make final budget revisions
	Hold public hearing(s) and adopt budget

Budget Terminology

Some key terms include:

Augmentation: additional funding for a cost increase in an existing program or service; for the provision of a new or expanded program or service; or for one-time costs, such as equipment.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures.

Budget Adjustment: A revision to a budget appropriation. City staff, under the direction of the City Manager, has the authority to move budget within or between department programs. Increases to the budget must be approved by the City Council.

Capital Improvement Program (CIP): A plan for capital expenditures to provide long-lasting physical improvements to be incurred over a period of one or more years.

Cost Allocation Plan: The purpose of the cost allocation plan is to summarize, in writing, the methods and procedures that the organization will use to allocate costs to various programs, grants, contracts, and agreements.

Cost Distributions: Payments made to the General Fund by other funds for the cost of providing administrative and support services, based on an established cost allocation plan. Cost Distributions are also termed Internal Cost Allocations.

Enterprise Fund: A governmental accounting fund in which services provided are financed and operated similarly to those of a private business. The rate or fee schedules for these services are established to ensure that the revenues are adequate to meet all necessary expenditures and obligations. Examples include the Water, Sewer, Community Development, and Transit Funds.

Encumbrance: The commitment of appropriated funds to purchase goods or services. Fund are typically encumbered through the use of a purchase order.

Expenditure Category: A basis for distinguishing types of expenditures. The major expenditure categories used by the City of Vacaville are salaries and benefits (includes full-time, part-time, overtime, benefits, and contributions toward internal service funds for workers compensation and retiree health care and leave payouts); services and supplies; major one-time expenditures, and indirect costs (overhead costs such as electricity and telephone, central garage charges, and insurances).

Fund: Separate, self-balancing sets of accounts that record all financial transactions for specified activities, revenue sources, or government functions. The

commonly used funds in public accounting are: general fund, special revenue funds, enterprise funds, internal service funds, debt service funds, capital project funds, special assessment funds, and trust and agency funds.

Modified Accrual Basis: Revenues are recorded as the amount becomes measurable and available. Expenditures are recorded when the liability is incurred.

Operating budget: The portion of the budget pertaining to the operations that provide government services. It does not include Capital Improvement Program expenditures.

Performance Measurement: The process of regular and continuous data collection on important aspects of City services, in order to evaluate the effectiveness and efficiency of those services over time.

Prior Year Carryover: Departments with General Fund operations are able to request that all or a portion of budget remaining unexpended at year-end be carried over into the next fiscal year. The savings may then be used for one-time expenditures approved by the City Manager. This mechanism promotes prudent use of General fund resources.

Reserve: An account used to indicate a portion of fund balance that is restricted or set-aside for a specific purpose, and is therefore not available for general appropriation.

Source of Funds: The types of revenues used to pay for the expenditures of each department. Some department budgets include revenues from one or more sources which legally may only be used for specified purposes. General Fund revenues are identified in the budget as "functional" (related to or derived from a department program, e.g., charges for services) or "discretionary" (funds from general sources such as property tax or sales tax, available for any purpose authorized by the City Council).

FUND STRUCTURE AND ACCOUNTING BASIS

General Fund	Special Revenue Funds	Enterprise Funds	Internal Service Funds	Capital Improvement Program
General Operating	Landscape Maintenance District Assessments Community Development Block Grants (CDBG) Housing Programs Community Facilities Districts Gas Tax Community Development	Water Utility Sewer Utility Transit	General Liability and Workers Compensation Central Garage and Fuel Station Retiree and Other Benefits Vehicle and Equipment Replacement Technology Replacement Printer/Copier Replacement	Capital Projects

The **General Fund** is the primary revenue source and operating fund for most of the services that cities typically provide, such as public safety (police and fire), street and park maintenance, and community services, as well as most administrative functions. The major funding sources for the General Fund are property taxes and sales taxes. The City sets aside a portion of its General Fund as an emergency reserve. Such a reserve is a prudent financial strategy because it provides options for the City to meet unexpected changes in its financial picture while continuing to provide fundamental municipal services. Examples of such changes might include a downturn in the local economy, state-imposed reductions in City revenues, unanticipated cost increases, catastrophic losses or natural disasters. The City Council had established a goal of maintaining an emergency reserve equal to two months (16%) to three months (25%) of General Fund operating expenditures, with the target being 20% of General Fund annual expenditures. The City Council will review the revenues and expenditures on a frequent basis and provide direction to the City Manager.

Special Revenue Funds are established to account for the proceeds of specific revenue sources (other than special assessments, pension trusts, proprietary fund operations and revenues received for major capital projects) that are legally restricted for specific purposes.

The City of Vacaville has the following special revenue funds:

- Building Related Fund (Community Development)
- Development Engineering
- Gas Tax Funds
- o Traffic Safety fines, forfeits, and penalties
- Lighting & Landscape Assessments
- Community Facilities Districts
- Community Development Block Grant (CDBG)
- Housing Programs

Enterprise Funds are used to account for business-type activities similar to those found in the private sector. Business-type activities include services primarily funded through user charges. An enterprise fund establishes a separate accounting and financial reporting mechanism rather than commingling them with the revenues and expenditures of all other government activities.

The City of Vacaville has the following Enterprise Funds:

- Sewer Utility
- Water Utility
- o Transit

The Successor Agency to the Redevelopment Agency of the City of Vacaville was established as a result of the 2012 dissolution of Redevelopment by the Governor. The Successor Agency is charged with paying the debts of the former Redevelopment Agency, disposing of its property, and winding down its activities. A Vacaville Oversight Board was in place, per law, to view and approve those activities. On July 1, 2018, the Oversight Board function will transfer to Solano County.

Internal Service Funds are used for operations serving other funds or departments within a government on a cost-reimbursement basis.

The City of Vacaville has the following Internal Service Funds:

- o General Liability and Workers Compensation Self-Insurance Funds
- Retiree Benefits
- Central Garage & Fuel Station
- Vehicle & Equipment Replacement
- Technology Replacement
- Printer/Copier replacement
- Capital Lease Obligations

Capital Project Funds are established to account for financial resources to be utilized for acquisition, construction and improvement of general fixed assets (other than those financed by Proprietary Funds).

The City of Vacaville has the following Capital Project Fund categories:

- Public Buildings and Grounds
- o Streets, Bridges and Lighting
- Storm Drain system
- Parks and Recreation
- Sewer Utility System
- Water Utility System

BUDGETARY BASIS

The budget is prepared in accordance with Generally Accepted Accounting Principles. All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

There are threemain budget categories: operating budgets, capital budgets, and debt service. Each category has its own revenue or funding sources for the services provided. All three budget categories may be found in each of the various fund types previously discussed.

BUDGET CATEGORIES	PURPOSE	FUNDING SOURCE
Operating Budgets -	Provide Services Recreation Public Safety Planning/Building Water/Waste Water Parks	Sales/Property Tax Licenses & Permit Fees Franchise Fees User Fees/Charges Grants Interest Income
Capital Budget -	Build and Maintain Public Facilities Infrastructure Improvements	Gas Tax Enterprise Charges State and Federal Grants Capital Development Fees Bond Proceeds
Debt Service -	Fund Infrastructure Improvements, Safety Apparatus and Equipment	GF Revenue Assessment District CFDs

FINANCIAL POLICIES

The purpose of financial and management policies is to provide guidelines and goals that will influence and direct the financial management practices of the City. A financial policy that is adopted, adhered to, and regularly reviewed is recognized as the cornerstone of sound financial management. An effective financial policy:

- Provides principles and guidelines that minimize costs and reduce risk
- Maintains appropriate financial capacity for present and future needs
- Ensures legal compliance and appropriate internal controls.

The City Council has adopted the following financial policies:

➤ General Fund Reserve Policy adopted 5/24/11

The General Fund Reserve Policy was established in order to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees due to temporary revenue shortfalls or unpredicted one-time expenditures. It further serves as additional insurance against disasters and emergencies.

The policy establishes the following minimum General Fund reserve targets:

- The City shall strive to maintain a General Fund operating reserve in the range of two months (16%) to three months (25%) of General Fund operating expenditures, with the target being 20% of General Fund expenditures.
- The appropriate level of General Fund reserves shall be reviewed every two years.
- As appropriate, a Capital Improvement Program General Fund Reserve may be created and developed for capital improvement needs.

The policy further states that at the end of each fiscal year, should audited year-end results show that General Fund revenues exceed expenditures and encumbrances, a year-end operating surplus shall be reported. Any year-end operating surplus which results in the General Fund balance exceeding the level required by the reserve policy shall be deemed available for allocation for the following, subject to Council approval:

- Re-establishing services or service levels, staffing, and/or concessions previously made by employees;
- Transfer to the General Fund CIP Fund for appropriation for general capital needs and/or deferred maintenance projects for which there is no other source of funding.
- Re-appropriation within the subsequent year's operating budget to provide for one-time, non-recurring needs.
- Use of General Fund excess balance shall not be used for new recurring expenses.

➤ Other Post Retirement Benefits Funding Policy (OPEB): adopted 11/10/15

The purpose of the policy is to reflect a goal of funding actuarially determined annual required contributions (ARC) to begin moving the CalPERS Employee Retiree Benefit Trust (CERBT) towards being more fully funded which would reduce the City's future liability with respect to the retiree health care benefit.

Under the policy, a goal of funding a specified increasing percentage of the ARC was defined over five years to reach 100% annual funding of the ARC. An exemption is allowed at any time that the General Fund Reserve is projected to reach a level below 10% to allow the City Council to determine an appropriate funding level. When the final year-end figures for the General Fund and budgeted revenues exceed budgeted expenditures, the City Council will direct 25% of the excess towards a one-time payment to the CERBT.

➤ Purchasing Policies and Procedures adopted 4/25/2000

This policy defines the responsibilities for purchasing supplies, service and equipment. It sets the levels of purchasing authority and when a purchase must be approved by the City Council.

FINANCIAL TRANSPARENCY

As part of the City's 2015-17 Strategic Plan to implement budget and financial transparency, the City began using Open Budget and Open Expenditures to allow residents to easily view the City's financial operations. The website interacts directly with the City's financial software to give up-to-date information through the use of interactive charts, tables, and graphs. This user friendly app can be accessed through the following link:

GENERAL FUND REVENUE SOURCES

The **General Fund** is the primary revenue source and operating fund for most of the services that cities typically provide, such as public safety (police and fire), street and park maintenance, and community services, as well as most administrative functions. The major funding sources for the General Fund are property taxes and sales taxes which account for 63.4% of all General Fund revenues. Overall, General Fund revenue is projected to increase 2.8% in the coming year.

TAXES

Property Tax

The State Constitution (Proposition 13) sets the base property tax rate at 1% of assessed value. The City currently receives only about 18 cents of every property tax

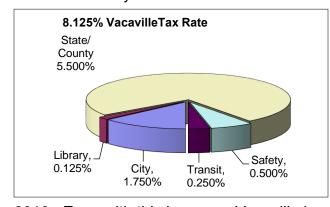

dollar generated in Vacaville, with the majority of property tax revenue going to the State (schools) and County. Homes, businesses, and other taxable real and personal property are subject to this 1% property tax rate. Growth in assessed value is limited to 2% or CPI, whichever is lower. However, when property ownership is transferred, or when property is newly constructed, it is reappraised at its current full market value. The gross assessed value of property in the City (including redevelopment project areas) stands at \$12.7 billion for the 20187/19 tax

year; an increase of \$638 million, or 5.3% more than the prior year.

Assessed property tax is distributed among various entities as shown in the graph.

Sales and Use Tax

The sales tax revenue received by the City is equal to 1% of all taxable sales within City limits. The City also receives a pro-rata share of use taxes which are "pooled" at the state and county level. The total tax rate in Vacaville. Solano County is 8.125%. The

breakdown of this rate, shown in the graph, is State rate of 5.50%, the Transportation Development Act rate of 0.25%; the Prop. 172 public safety sales tax rate of 0.50%, the Solano County Library rate of 0.125%, and 1.75% to the City. This includes the renewed Measure M rate of 0.75% for twenty years which was approved by voters in November 2016 and went into effect on April 1,

2018. Even with this increase, Vacaville has a lower sales tax than 85% of California's other cities and counties.

The sales and use tax is the General Fund's second largest revenue source at \$ 36.6 million (including Measure M) for 2019/20 and comprises 34% of total General Fund revenues. Sales tax including Measure M are forecasted to be flat in 2019/20. Measure M revenues will reflect the increase in rate from one-quarter cent to three-quarters of a cent.

Franchise Fees

The City has awarded franchise agreements to private companies for the right to do business in the City using public rights-of-way. This includes PG&E, Recology Vacaville Solano, and Comcast Cable TV and ATT. Franchise payments are estimated to generate \$4.6 million in 2019/20 or 4.3% of General Fund Revenues. Revenues are expected to be flat in the coming year.

Paramedic Tax

The citizens of Vacaville initially approved this ad-valorem tax in 1976. The rate is \$0.3 per \$100 of assessed valuation on property within the City limits, and is collected by the County along with property taxes. The proceeds are used to pay for emergency medical and ambulance services. The paramedic tax is expected to yield \$4.9 million in 2019/20 and comprises 4.6% of projected revenues. All proceeds are used to support paramedic and ambulance services within the city and cover roughly 41% of the expected cost of providing essential EMS services.

Excise Taxes

- Measure I This tax was initially approved by voters in 1989 to pay for construction of the Ulatis Cultural Center and provide an additional source of funding for services such as street maintenance, library services, cultural events and recreation activities. The continuation of Measure I was approved by voters in November 2012. The excise tax rate is applied as follows: \$4.83 per month for residential property collected on the bi-monthly utility bill; 2% of hotel room rates collected along with the City transient occupancy tax; and varying amounts (per employee) for commercial establishments within the City limits collected along with the annual business license. The Measure I tax revenue is projected to generate \$2.6 million in 2019/20, or about 2.4% of General Fund revenues.
- Measure G This tax was approved by voters in 2005 to replace longstanding fees imposed upon the City's water and sewer operations. The tax is comprised of a 1% "property" tax on the assets of the utility funds and a 5% "franchise" tax on utility operating revenues. The Measure G excise tax is expected to generate \$6.2 million in 2019/20, or about 5.7% of General Fund revenues.

Other General Fund Taxes

The City receives revenue from three lesser taxes – Transient Occupancy Tax, Real Property Transfer Tax, and Business License Tax, which together comprise about 3% of General Fund Revenue.

INTERGOVERNMENTAL

Intergovernmental revenues are funds received from State and federal sources, as well as other local agencies such as the County. The budget projection of \$860,000 for 2019/20 comprises 1% of General Fund revenues, and consists of the following principal sources: Vehicle License Fee (VLF), Homeowner's Exemption, and Other (minor amounts from various sources).

DEPARTMENTAL FEES AND CHARGES

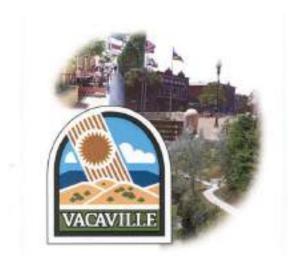

Due to limitations on the City's ability to raise general fees and taxes, fee for service revenues represent a growing component of overall General Fund revenues. The projection of \$10.2 million for FY2019/20 represents around 9.4% of overall General Fund Revenues. Principal sources of departmental fees and charges include Recreation and Facility Fees, Emergency Medical Fees, and Other Fees and Charges (police charges, fire inspection and permit fees, and finance administration fees).

OTHER REVENUE

All other General Fund revenue sources are expected to yield \$2 million during the budget period, and account for 2% of revenues. Included in this amount are investment earnings projected at \$1.02 million. Also included are wireless site lease revenues, along with other miscellaneous revenues and reimbursements from other funds for General Fund support services.

OPERATING TRANSFERS

The General Fund receives money from a number of other City funds to offset the cost of providing services, including Public Safety Districts and Traffic Safety Fines.

CITY COUNCIL AND TREASURER

The City of Vacaville is a general law city with a Council-Manager form of government. The City Council has five members including the Mayor, who are elected by Vacaville voters on a citywide basis ("at large") to alternating four-year terms.

The City Council acts as a legislative and policy-making body. The responsibilities of the City Council are to establish and approve the local laws, policies and budget that guide the current operations and future direction of the city. The City Council also serves as the governing body of the Successor Agency to the Vacaville Redevelopment Agency and the Vacaville Housing Authority. The City Council appoints the City Manager and the City Attorney.

The City Treasurer, also an elected position, oversees safekeeping of public funds.

CITY ATTORNEY'S OFFICE

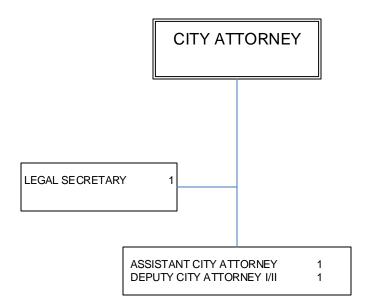

The City Attorney's Office and its staff provide legal representation and services to the Vacaville City Council, City agencies, departments and commissions.

The Office provides a wide variety of legal services to its City clients, such as representing the City and agencies in litigation and administrative hearings; preparing ordinances and resolutions; reviewing and preparing contracts, leases, and other legal documents; researching and preparing legal opinions on matters affecting the City and its agencies; and, advising City clients on various legal matters.

The Office also serves as legal counsel to the Solano Animal Control Authority and the Vacaville/Dixon Greenbelt Authority. Although the Office provides information to the public on matters involving the City and its agencies, the Office does not provide legal advice or services to the public.

The City Attorney is appointed by the City Council. The staffing level of the Office has not changed since 1995. The staff includes the City Attorney, One Assistant City Attorney, one Deputy City Attorney I/II, and one Legal Secretary. For FY19/20 the proposed budget includes \$60,000 for contract legal services to assist the Office with various more routine items, such as contract review, allowing existing staff to focus on significant projects such as preparing for the 2020 district elections, Municipal Code updates and revisions, completing the City-wide retention schedule and pro-active risk management.

CITY MANAGER'S OFFICE

The City Manager is appointed by the City Council to serve as the chief executive officer of the organization. In addition to providing support to the City Council and administrative direction to City departments consistent with Council policies, the City Manager's Office is responsible for intergovernmental relations, economic development, government affairs, coordination of special event permit review committee, public information, and budget development/administration. The department also responds to all calls to the City's general information phone lines. Overall, the City Manager's Office oversees the operations of the City in a manner consistent with the City's core values of accountability, responsiveness, innovation, and inclusiveness. A major effort of the Department is focused on ensuring the long term viability of the community through the development and administration of programs to enhance city revenues, economic development to generate jobs for our residents, and providing for the overall quality of life for our community.

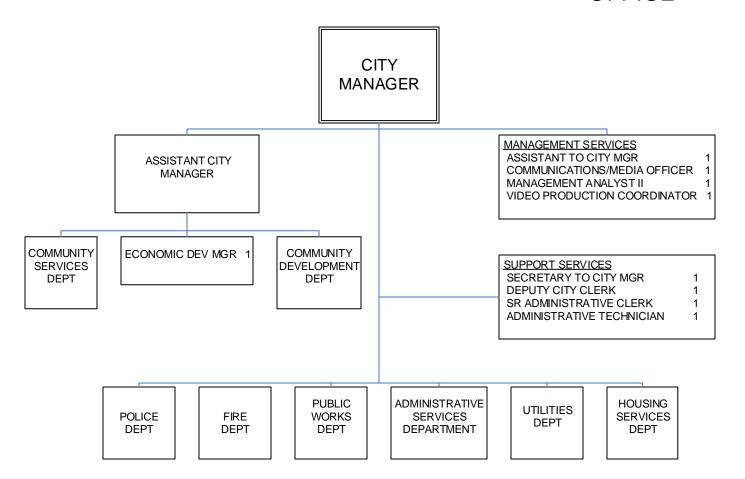

The budget for the City Clerk function, an elected position responsible for maintaining official City records and the conduct of municipal elections, is also located in the City Manager's Office.

BUDGET HIGHLIGHTS

The proposed FY19/20 budget for the Economic Development section has been increased to reflect increased activity in promoting Vacaville as an excellent place to site a business. This includes funding for a City presence at next year's international biotech conference which will take place in California.

The budget for the Communications and Media Office (formerly Public Information Office) was augmented for the potential need for contract services based on the upcoming retirement of the Communications and Media Officer and Council's direction for increased community engagement.

ADMINISTRATIVE SERVICES DEPARTMENT

The Administrative Services Department includes four divisions – Administration, Human Resources, Finance, and Information Technology. The Department provides overall administrative functions for all City Departments, as well as a variety of services for our citizens and business community. The Department is customer service oriented and takes great pride in its work and models the City's core values.

Administration Division

The Administration Division provides administrative oversight and support to the Department and administers the general liability risk management program.

Human Resources Division

The Human Resources Division provides recruitment, classification, salary and benefits administration, payroll, workers compensation, safety, training and development, and labor and employee relations services.

Finance Division

The Finance Division is responsible for the financial accounting and reporting systems; purchasing, accounts payable and accounts receivable; water meter reading, utility billing and collection; and business license administration. Finance manages the cash and investment portfolio, as well as ongoing administration of the City's long term debt transactions and community facilities districts. The Division has received state and national awards for excellence in financial reporting for the past 26 years.

Information Technology Division

The Information Technology (IT) Division provides daily technical support of all hardware and software, implements IT projects, and provides long range planning and improvements related to computer network and telephone infrastructure.

BUDGET HIGHLIGHTS

The Administrative Services Department will generate approximately \$69,700 in annual revenue for the City by providing human resources, revenue accounting, and payroll services for Solano Transportation Authority (STA) and accounting services to Community Action Partnership Solano (CAP Solano).

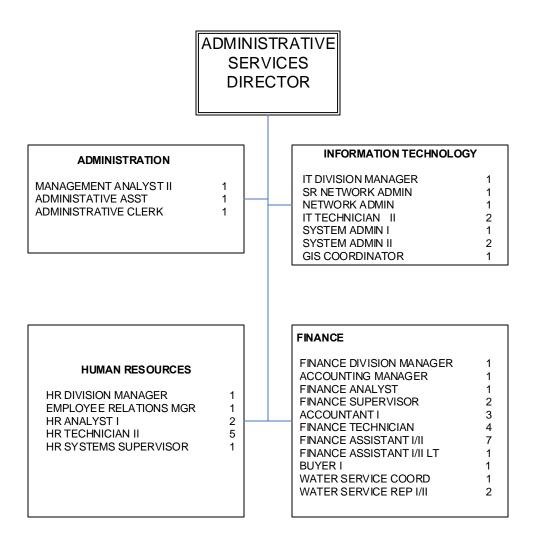

The Investment Officer in the Finance Division retired and the position has been replaced with a Finance Analyst. The City will contract out the investment function and the Finance Analyst will manage the cash, including debt transactions and community facilities districts. This position will perform analyses on a variety of finance related projects and programs.

The IT Division will work with a consultant to develop an IT Strategic Plan that includes a Geographic Information System (GIS) Master Plan.

The Human Resources Division will focus on Recruitment and Retention Initiatives that include Employee Engagement and Citywide Training. The initial focus will include health and wellness, as well as an in-house Career Advancement/Exploration Program.

The Department will begin implementation of a new enterprise resource planning system to replace the current financial and human resources software related to the City's core business processes. The projected budget for this multi-year project is \$2,500,000, funding for which has been set aside over the last three years.

DEPARTMENT OF HOUSING SERVICES

The Department of Housing Services (DHS) takes great pride in its role in improving the quality of life for Vacaville's residents. The department consists of three divisions: Housing Programs, Successor Housing and Successor Agency. The DHS also completes special projects. The following provides a brief overview of each divisions work and FY 2019-2020 budget highlights.

Housing Programs Division (known as the Housing Authority) has been funded by the U.S. Department of Housing and Urban Development (HUD) since 1976. Staff implements the Housing Choice Voucher (Section 8), Family Self-Sufficiency, and Homeownership Programs. These programs improve living conditions and promote self-reliance for approximately 1,200 very low-income Vacaville households each month, while investing approximately \$11 million in the Vacaville rental market. The Division also contracts to administer the same programs for Solano County. This program is significantly smaller than Vacaville's program, serving approximately 290 very low-income households in the Cities of Dixon and Rio Vista and in the unincorporated areas of Solano County each month.

<u>Successor Housing Division</u> is responsible for developing and maintaining affordable housing with housing assets of the former RDA and for ensuring existing affordability agreements are being honored. This division also: administers the Community Development Block Grant Program through annual entitlement funding from HUD, administers a First Time Homebuyer Down Payment Assistance Loan Program through funding from the California Department of Housing and Community Development, implements the HUD certified Housing Counseling Center, implements the annual Senior Home Improvement Program and contracts to administer grants on behalf of the Community Action Partnership Joint Powers Authority (JPA). JPA related expenditures are offset by available administrative grant allowances and payment contribution from the JPA.

<u>Successor Agency Division</u> completes work necessary to "wind down" the former RDA by ensuring payment of "enforceable obligations," interacting with the state and county on former RDA financial and other matters, and preparing and providing documentation and information to the State Department of Finance and Controller's Office and Solano County Auditor-Controller's (SCAC) office as requested or required. Division staff will continue to prepare and present needed meeting agenda materials to the Solano County-wide Oversight Board in coordination with the SCAC. No administrative funds are available this year, therefore those costs are being absorbed through other operating budgets.

<u>Special Projects</u> are implemented by the DHS as appropriate. This year, the DHS will continue to administer the Downtown Blade Sign Grant Program to fund additional blade signs in the downtown. DHS will also participate in the Downtown Specific Plan and Directional Signage Program. Special Projects are funded with former RDA bond proceeds.

Budget Highlights:

The DHS budget anticipates increased funding for the Housing Programs Division for rental assistance adding one full-time position to be paid with CAP Solano JPA available administrative allowance funding. The DHS budget incorporates the following goals:

- Housing Programs Division:
 - Provide Section 8 rental subsidy on behalf of approximately 14,400 very-low income Vacaville households and 3,480 very-low income households under the County program.
 - Assist Housing Choice Voucher households to achieve self-sufficiency and economic independence and/or homeownership.

- Continue adding Project Based Vouchers to support affordable housing acquisition/ rehabilitation and/or new construction developments.
- Opening the waiting lists to accept new applications.

Successor Housing Division:

- Continue work on developing affordable housing: Shasta/Elmira Senior, Vanden Military, etc.
- Monitor 88 agreements covering 1,056 rent restricted apartments and single-family units.
- Support youth development programs and conduct facility improvements to support those programs.
- Provide First Time Homebuyer Down Payment Assistance loans and Housing Counseling Services.

Successor Agency:

• Continue "winding down" the former RDA.

COMMUNITY DEVELOPMENT DEPARTMENT

The Community Development Department provides services that facilitate land development, including residential, commercial, industrial, public facility, and economic development projects. The Department budget has five parts: Administration, Building Division, Current Planning Division, Advanced Planning Division, and Planning Commission. The Community Development Budget includes 16 FTE (a 1 FTE reduction from FY17-18).

BUDGET HIGHLIGHTS

The FY19-20 budget anticipates steady development related activity. It also anticipates a very busy year in Advanced Planning activity, with several major projects including:

- Downtown Specific Plan
- Development Code Update
- Green Tree Specific Plan

The budget includes a \$524,000 reduction (11 percent), from the FY18-19 Budget. These budget reductions are from the following:

- Eliminating a part time office aid position and summer interns.
- o Reducing our contract building inspection budget from \$250,000 to \$135,000.
- Completion of some one time projects (Code Audit, Residential Design Standards).
- A general reduction in professional and contract services.
- Various other reductions.

Note that a Senior Planner position was eliminated in the FY18-19 budget.

The budget also includes a continued General Fund contribution of \$500,000.

Revenues

The budget forecasts \$2.9 million in permit revenue: the same level as FY18-19. The City also secured two planning grants for downtown planning. The Development Code update is funded through \$350,000 in Measure M funds.

<u>Building</u>

It is anticipated that building activity will remain steady in FY19-20. The proposed budget reduces the contract building inspection budget from \$250,000 to \$135,000.

Current Planning

It is expected that Current Planning activity will continue to be strong during FY19-20. The budget eliminates \$60,000 of consultant services.

Advanced Planning

In FY19-20, we will focus on three major projects:

- Downtown Specific Plan
- Development Code Update
- Green Tree Specific Plan

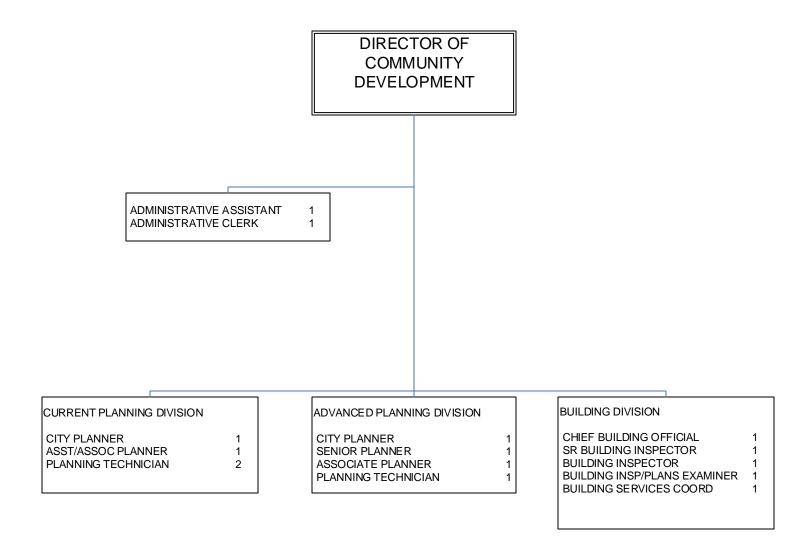

Each of these projects will be headed by one of our Advanced Planning staff. In addition, we have a number of other projects to undertake:

- Supporting the AB1600 study
- Zone changes to reflect the General Plan
- Affordable housing impact fee study
- ECAS update
- Telecommunications Ordinance update
- Secondhand Goods Collection Bins ordinance
- Cannabis ordinances

Other

The budget includes a \$298,790 payment for an internal loan for creation of the General Plan. This will be funded partly through the General Plan Cost Recovery Fee.

COMMUNITY SERVICES DEPARTMENT

The Community Services Department offers a wide range of recreational programs and special events for residents of all ages, operates the City's community centers, aquatic center, sports centers, parks and performing arts theatre.

For budgeting purposes, the activities of the Community Services Department are grouped into three categories, Programs, Facilities and Social Services Programs. These three categories have different goals for cost recovery. The significant portion of cost recovery comes from *Programs*, the "pay-to-play" classes, activities, and sports programs offered to the general population. These programs are expected to recover direct costs (e.g. staffing, supplies, and utilities), and to contribute toward the departmental and citywide overhead costs.

The *Facilities* category (buildings used for events, programs, trainings, meetings and private rentals, including the Vacaville Performing Arts Theater, Ulatis Community Center, Three Oaks Community Center, McBride Center, Walter V. Graham Aquatic Center and Georgie Duke Sports Center). The higher level of General Fund support for this category reflects existing policies for subsidized community usage of the buildings. The Vacaville Performing Arts Theater also receives an annual allocation from excise tax (Measure I) revenues.

The third category, *Community Well-being Programs*, includes programs and activities for seniors, community-wide special events, and a newly created therapeutic recreation program for disabled youth and adults. These programs receive a higher level of funding from General Fund discretionary revenues based on the needs and benefit to the community

BUDGET HIGHLIGHTS

In FY 2019-20, the Community Services Department plans to continue creating new programs that will generate additional General Fund revenue while fostering human development, increasing cultural unity, and increasing health and wellness in Vacaville.

Cultural Arts has developed some strategic partnerships to vastly expand music and art program offerings to youth, adults and homeschool children. We will develop and create at least six classes, and recruit to expand the amount of drama, music and visual arts classes offered.

The Teen Program will be building on their newfound success of Vaca-Con, Vacaville's first event to celebrate pop culture. Teen programming will endeavor to create 1-2 additional programs and/or events.

Youth Services will streamline and enhance the drop-in component for families that need TGIF care on an intermittent basis through a membership and scan-in/out process. Youth Services will continue to seek out enriching opportunities to provide diversified programs to the community.

The Special Interest budget has expanded its offerings and is looking to add cooking classes, foreign language, dog obedience and holiday craft and gardening workshops. We will continue to develop and offer at least 8 new classes during the fiscal year.

Youth Sports is working to provide a wide variety of sports and programming for all ages and abilities and will continue to expand both competitive and recreational league offerings. Adult

Sports will program both traditional and non-traditional and trending activities that promote health and wellness in the community.

Special Events will promote a sense of community while providing family friendly events for all ages. The CreekWalk Concert Series, now in its 19th year, remains an ever popular venue for people to enjoy music, food and fun on Friday nights throughout the summer. In 2019, we will offer a fun new event, the Tournament of Families; this all-day event will take place in Andrews Park and throughout downtown Vacaville. Each team will consist of up to five family members that compete in a wide variety of park picnic style activities such as a water balloon toss, three legged race, scavenger hunt, etc. On-site business and local non-profits will be encouraged to participate as food and drink vendors.

The Aquatics team has expanded its program offerings to make the water park more attractive to the pre-teen and teen population by introducing Friday Night Glow N Slide, a Friday night pool party with glow sticks; and for families with a new Family Fun Night series, including Dive-In Movie Nights, inflatable obstacle course, carnival, float nights and more. We will connect with local businesses to make our programs and events affordable for participants by setting up and securing sponsorship relationships.

McBride Center will establish new partnerships and collaborations with other agencies and businesses in Vacaville to provide quality classes and events. In addition, active promotion of the newly developed membership program will take place. Coordination of intergenerational classes and programs will be a priority in the coming year. Finally, expect the billiards room to receive a makeover.

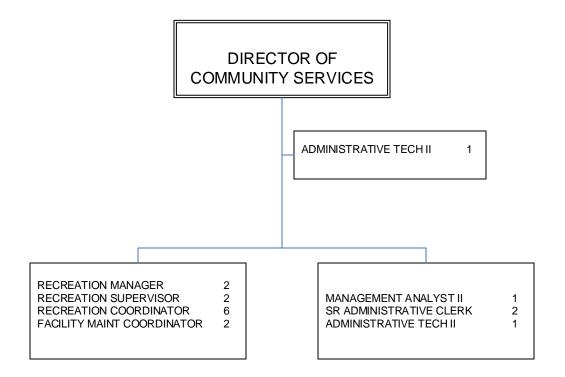

Early Childhood Enrichment will provide an enriching preschool experience for both the young child just starting, as well as those getting ready to head to kindergarten. Spring break and summer camps are in the works for little learners as well as an expanded Get Ready for Preschool option. In addition, building on the success of parent/child interactive classes, a number of one day workshops are planned throughout the next year to include an expanded family component with grandparents.

Gymnastics classes teach participants self-confidence while developing a defined skill set. In the next year the program will promote Athlete Conditioning which helps participants stay "gymnastics ready" year round. Additional new programs include Ninja 101, Parkour (a freedom of movement class) and expanded options for the homeschooling community. Additionally, we will build on our successful competitive program by soliciting to host meets at our local gymnastics facility. This will bring competitive teams from the west coast to Vacaville, boosting our local economy.

The new Therapeutic Recreation program will focus on advertising and building a consistent participant base. The intention of this program is to provide youth and adults with disabilities the opportunity to socialize, recreate and build life skills in a safe and supervised setting. Staff hope to implement monthly activities and fieldtrips that are self-sustaining.

Facilities have a number of projects coming this fiscal year. We are installing a new 3 meter platform at the Graham Aquatic Center. We are working with Public Works to get new blinds installed at McBride, Three Oaks and Ulatis Community Centers. Three Oaks Community Center is installing a new ceiling mounted projector with wireless controls to increase the use of this facility as a meeting rental space. We also anticipate upgrading and improving the stage lighting. The McBride Center will have a new PA / Sound system installed.

POLICE DEPARTMENT - BUDGET NARRATIVE FY 19/20

The Vacaville Police Department's key to public safety focuses on prevention, crime suppression, and community engagement by using innovative programs, specialized enforcement units, and directed patrol teams. Legislative changes affecting crime, such as prison realignment, decriminalization initiatives like Prop 47 and Prop 57, and the legalization of marijuana continue to be challenges going into FY 19/20. Other changes in the laws related to the release of previously confidential personnel and use-of-force records, such as SB 1421 and AB 748, have resulted in far greater impacts in the Office of Professional Standards (OPS). These increased demands placed on the current sergeant of the OPS within the police department now require a manager-level lieutenant position based on the risk management and expertise regarding policy, claims, complaints, and training mandates.

Proposed changes to the use-of-force laws in our state demonstrate why liability protection and risk management in Patrol and throughout the organization are more critical than ever in this new era of policing in California. At fiscal mid-year, a 4th Watch Commander (lieutenant) will be added during evening hours to deliver management oversight coverage seven days-a-week, 20 hours-a-day, which is a standard best-practice model for a city of Vacaville's population. Mid-year FY19/20 will also see the addition of one (1) police officer position to be added to one of the Watch 3, graveyard, teams to increase minimum staffing during overnight hours.

In FY 18/19 staff examined more effective ways to deploy department staff to improve overall effectiveness. A new false-alarm administration software solution is being implemented which will reduce the manual tasks currently performed by an administrative technician by approximately 90%. This will allow the reassignment of duties in FY 19/20 to assist with other heavy administrative workloads without having to add additional staff. Further, traffic resources have been significantly impacted due to increased vehicle abatement and parking enforcement needs throughout the city. The review of additional assignments permitted the reassignment of a Community Service Officer (CSO) position to the Traffic Section to assist with vehicle parking complaints and traffic collision investigations, resulting in greater availability of motorcycle/traffic car officers for proactive enforcement around schools.

The success of the Community Response Unit (CRU) in working to reduce the impacts of homelessness demonstrates the critical importance of having direct resources available in the field. The Family Support Worker (FSW) position assigned to CRU had provide resources to persons experiencing homelessness. This grant funded position ended in FY18/19, but proved invaluable for the success of CRU. The department is exploring a partnership with a private, locally-based non-profit to provide wrap around services as well as case management to our local homeless population using a \$50,000 budget augmentation.

The Police Activities League (PAL) program has been managed by the Community Services Department in Vacaville for many years. A recent evaluation of the PAL program identified a better approach to reaching at-risk youth by moving it to the Youth Services Section (YSS) within the Police Department, making it more accessible to the police officers. Providing support for PAL programs on school campuses promotes greater youth participation and support. An existing program coordinator within the PD's Clinical Services Division will manage the program. Additional funding for part-time staff assistance has been transferred to the Police Department from the Community Services budget.

In addition to the Consumer Price Index (CPI) adjustment, the Services & Supplies budget reflects a \$92,400 augmentation which will close funding gaps in mandated training, technology, and operational supplies and equipment.

FIRE DEPARTMENT

The Vacaville Fire Department (VFD) provides community risk reduction and emergency services to the City of Vacaville. Community risk reduction services include fire prevention, code compliance, construction plan review, construction inspections, fire investigations, and fire and life safety public education. VFD firefighters are all-risk emergency responders and provide a variety of services including fire suppression, emergency medical services, ambulance transport, hazardous materials response, technical rescue, water rescue, and any other non-fire emergency response. VFD's emergency medical transport serves the City of Vacaville as well as 160 square miles of unincorporated area adjacent to the City.

Call volume increased 4.1% to 11,097 total fire and Emergency Medical Services (EMS) incidents in 2018 as compared to 10,664 incidents in 2017. Medical emergency incidents also continue to rise in volume. Overall unit responses rose to 20,614 in 2018 from 20,051 in 2017.

In 2018, the VFD added an administrative battalion chief to manage the EMS and ambulance programs. The administrative battalion chief (BC) has proven invaluable for the Fire Department, ensuring that all EMS personnel are current in certification and licensing requirements. The BC has also ensured Vacaville's ambulance services continue to operate efficiently.

The Fire Department also implemented the Fire Explorer Program in 2018. The program introduces Vacaville youth to potential fire service careers. The inaugural class of explorers consisted of 15 diverse youth from Vacaville ranging in age from 15 to 21.

BUDGET HIGHLIGHTS

Services and Supplies

Ongoing expenses related to Fire Department operations continue to increase at rates higher than the standard CPI. In 2018, the Training and Personal protective equipment (PPE) budgets were increased by \$60,000 each, along with a \$45,000 increase in emergency medical supplies. These increases brought those budgets more in line with the actual cost of operations. For fiscal year (FY) 2019/20, Services and Supplies budgets were increased by a 4.5% CPI.

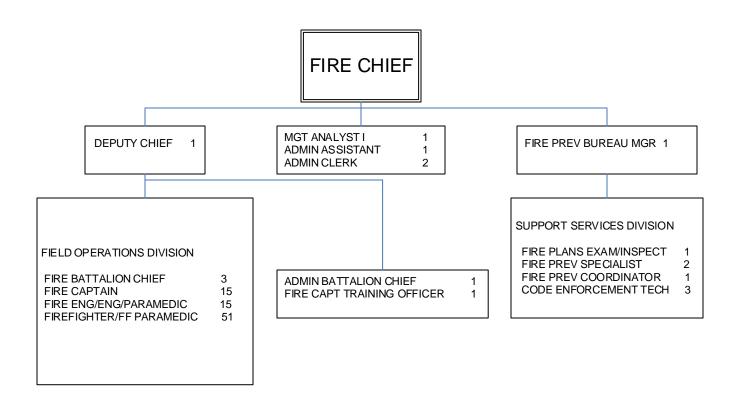

The City of Vacaville is member of the Solano County Hazardous Materials Response Team Joint Powers Authority (JPA). The JPA voted, in 2017, to increase annual member fees to \$5,000. The JPA also voted a special assessment of \$5,000 per year for two years. FY 19/20 is the second year of the \$5,000 special assessment.

Salaries and Employee Benefits

The Salaries and Employee Benefits budget will be increased by \$1,200,000 from Measure M funding to add six firefighter/paramedic positions to staff Medic 73, including clothing and equipment, as well as overtime for an in-house fire academy. This will bring the minimum daily staffing of the fire department to 26 personnel and place an ambulance in service at each of the

five fire stations in the City, improving ambulance response time in the northwest portion of the city, which currently does not have a full-time staffed ambulance. The Vacaville Fire Department ambulance services has continued to experience an upward trend in services provided in the past five years and transported 6,492 patients in 2018, which is a 6.6% increase in transports compared to 2017. Ambulance services is expected to generate over \$4 million in revenue for FY 2018/19.

PUBLIC WORKS DEPARTMENT

The Department of Public Works includes three divisions: Administration, Engineering Services, and Maintenance. These divisions design, develop, and maintain the infrastructure of the City, including parks, streets, water, sewer and storm drainage systems, City buildings and facilities, transit, traffic signals, solid waste, recycling, street signs, and striping.

Engineering Services Division

The majority of the Engineering Services budget is funded through direct charging to Capital Improvement Program (CIP) projects supported by Development Impact Fees (DIF), or charging to land development projects supported through plan check and inspection fees paid by developers.

The Engineering Services Division consists of the Design, Construction, Traffic Engineering, and Development Engineering Sections. Design and Construction provide the design, inspection, contract administration for all CIP projects, and construction inspection for private development projects. Traffic Engineering is responsible for traffic operations, long range traffic modeling and planning, and roadway and traffic signal design. Development Engineering provides land development services to support private development and is responsible for the review and approval of subdivision maps, subdivision improvement plans pertaining to public infrastructure, and the preparation of benefit/assessment districts.

Maintenance Division

The primary sources of funding for the Maintenance Division are Water and Sewer Utility fees, General Fund/Measure M, Gas Tax, Landscape and Lighting Maintenance Districts, and State and Federal Transit funds (TDA/FTA).

The Maintenance Division is made up of three primary sections: Streets and Field Utilities, Parks Maintenance, and Fleet and Facilities. The Division is also responsible for City Coach transit services, central stores, recycling, solid waste franchise, and ADA coordination. The primary mission of Maintenance includes the repair and preservation of all City owned infrastructure and facilities, including water and sewer systems, streets, sidewalks, street lighting and traffic signals, parks, setback and median landscaping, city buildings, and all rolling fleet and mechanical equipment.

BUDGET HIGHLIGHTS

The 2019/20 Public Works budget includes the following augmentations:

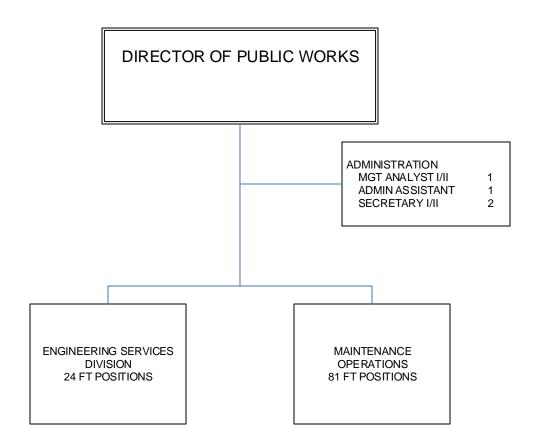

Solid Waste / Recycling: The addition of one Full Time Program Coordinator II (\$88,442) to assist the Management Analyst II who is responsible for Solid Waste franchise management, recycling, and will be the City's ADA Coordinator. The adoption of AB1826 and SB1383 by the State trigger the requirement for Vacaville to phase in organic recycling for commercial and residential customers over the next two years. This legislation places the onus of oversight, administration and reporting on the City of Vacaville. This position will insure proper implementation of the new recycling regulations, coordination with the City's solid waste contractor, development of oversight and inspection protocols, and a well-managed, efficient recycling and organic recycling program.

<u>Homeless Site Remediation</u>: The addition of \$60,000 for the remediation of homeless sites. Public Works has tracked expenditures for the clean-up and remediation of homeless encampments over the past two years. Remediation costs averaged \$60,000 during the two year period. This is expected to be an on-

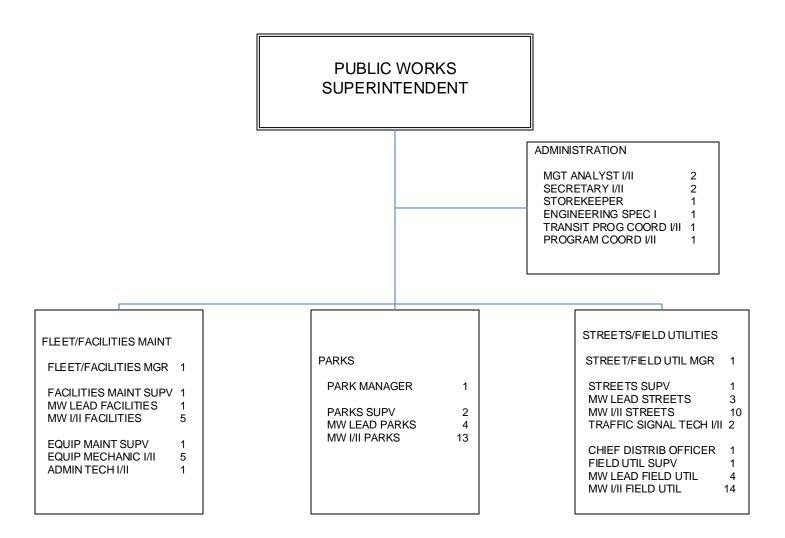

going impact to the Public Works Maintenance Operating Budget, and takes valuable funding away from cash strapped park, landscaping and street maintenance programs. This budget will not augment salaries, but will be used solely as operating funds to employ remediation companies.

INFOR Asset Management Software License: This budget augmentation is for an annual set-aside of \$66,667 beginning in FY 19/20 for a recurring 3 year license agreement. Three years ago Public Works implemented a new asset management software system known as INFOR, which has a license renewal fee every 3 years, and includes product maintenance and software support.

UTILITIES DEPARTMENT

The Utilities Department acquires, treats, and delivers clean drinking water to Vacaville's customers. The Utilities Department also collects, treats, and environmentally disposes of Vacaville's wastewater and biosolids. The operation of the water treatment facilities and the wastewater treatment facilities are regulated through permits issued by the Division of Drinking Water (DDW) and the Central Valley Regional Water Quality Control Board (RWQCB), respectively, of the State Water Resources Control Board. These agencies establish standards and monitor compliance through frequent reporting and on-site inspections to ensure that water quality, water conservation, public health, and environmental concerns are addressed.

BUDGET HIGHLIGHTS

Water Operations and Maintenance.

The Utilities Department has been able to keep total expenses in the Water Fund down over the past five years through deferral of non-essential maintenance projects and purchases, and temporary suspension and/or reductions of contributions to rehabilitation accounts. These efforts have reduced the Water Fund's previous cumulative deficit from (\$10.9M) at the end of FY 11/12 to (\$2.9M) at the end of FY 17/18. However, increases in raw water purchase costs, power costs, water treatment chemical prices, and water system improvements necessary to address the City's aging infrastructure are anticipated to increase expenses significantly over the next few years. Total expenses are expected to increase from \$19.8M in FY 18/19 to \$22.6M in FY 22/23.

Although revenues continue to recover from the impact of the recent California drought, water conservation is projected to continue to have an effect, albeit of a lesser magnitude, in the coming fiscal year. Per capita water demand has dropped by 20% since 2013.

In January 2016 the City Council approved a five year water service rate increase designated to increase overall revenues by 5.5% annually in order to address issues in the Water Fund, including: the existing cumulative deficit; the revenue impacts from drought-related water conservation; an imbalance between fixed and variable revenue versus expenses in the existing rate structure; impacts from a recent court decision restricting tiered rate structures; and the additional expenses required to comply with the 2014 State regulations for Hexavalent Chromium. Although the State has temporarily stayed the Hexavalent Chromium regulation as a result of a legal decision, it is anticipated a new regulation will be proposed by the State within the next two years. The revenues from the approved water rate increases are expected to meet projected operating costs, and reduce the deficit in the Water Fund through FY 19/20. It is expected that a rate study will be commenced in FY 19/20 to evaluate various rate options moving forward.

The proposed budget for FY 19/20 projects a modest surplus of \$169K. Projected revenues are \$22.4M, and projected expenses are just over \$21.8M. The proposed budget continues much-needed contributions to water system rehabilitation accounts to make some necessary repairs to the City's aging water distribution system, and debt service payments for the citywide upgrade of residential water meters.

The budget includes the addition of half the salary and benefits for one Field Utilities Maintenance Worker in the Public Works Department. This worker is a necessary addition to the water distribution system maintenance crew to address increasing repairs to the City's aging distribution system pipelines, which has increased from 232 miles in 1990 to 362 miles in 2018

(approx. 44% increase). Additionally, the proposed budget includes the replacement of two vehicles partially funded through the Water Equipment Replacement Fund.

Wastewater Operations and Maintenance. The \$136M Easterly Wastewater Treatment Plant Tertiary Project, a four-phase construction project to implement treatment requirements mandated by the Regional Water Quality Control Board (RWQCB) moves closer to completion. Phases I through III were completed by 2016 at a total construction cost of \$119.7M. The Phase IV Project (Close-Out) started construction in January 2017 and is anticipated to be completed in July 2019 at an estimated cost of \$15.5M. Consequently, the total estimated cost of the Tertiary Project is anticipated to be approximately \$135.2M. The Tertiary Project was funded through a State Water Resources Control Board (SWRCB) State Revolving Fund Loan, the payments for which were to be split approximately 50/50 between wastewater rates and Sewer Development Impact Fees, subject to economic circumstances.

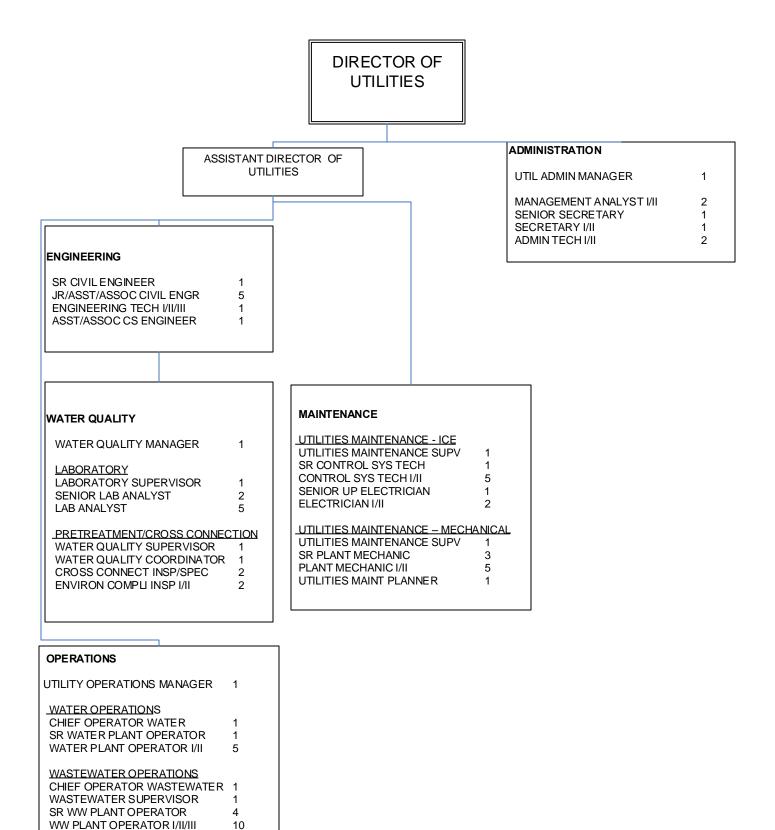

As a result of annual rate increases established in 2010 to fund this project, the Sewer Fund built up a reserve that stood at \$19.6M as of FY 17/18 to make the anticipated \$7M annual SRF Loan payments. Since the expiration of the rate increases, Sewer Fund revenues have been flat and will continue to remain relatively flat, with projected revenues of \$34.2M in FY 18/19 to \$35.6M in FY 22/23.

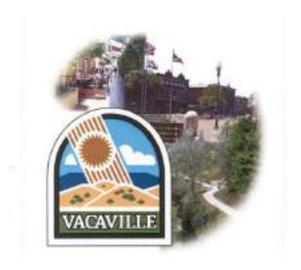

Total expenses in the Wastewater Fund have steadily increased over the past five years, from \$25.0M in FY 13/14 to \$36.6M in FY 17/18. This is primarily due to debt payments for the Expansion and Tertiary Projects. With the last debt payment from the Sewer Fund towards the Expansion project taking place in FY 19/20, the Fund is projected to maintain positive cash flows for the next five years. However, with debt service payments for the Tertiary project currently at \$7.1M annually, expenses will continue to increase and are projected to eventually exceed revenues starting in FY 24/25.

The proposed budget for FY 19/20 shows a modest surplus of \$173K. The budget includes the addition of half the salary and benefits for one Field Utilities Maintenance Worker in the Public Works Department. This worker is a necessary addition to the sewer collection system maintenance crew to address increasing repairs to the City's aging collection system pipelines, which have increased from 204 miles in 1990 to 291 miles in 2018 (approx. 43 % increase). Additionally, the budget includes one vehicle being replaced partially using funds that have already been set aside in the Wastewater Equipment Replacement Fund.

With the anticipated completion of all phases of the Tertiary Project in FY 19/20, the Utilities Department will be evaluating the final project costs, and the most cost effective options for making the debt service payments. This evaluation will include the results of a current study of the City's Wastewater Development Impact Fee, and may include debt restructuring and/or refinancing options, and appropriate "fair share" contributions from new development proposed in the 2015 Vacaville General Plan Update, with the intent of reducing annual debt obligations on the Wastewater Operations and Maintenance Fund and maintaining the Fund's current positive annual cash flow.

NON-DEPARTMENTAL

The Non-Departmental budget funds operating costs of a general nature, not associated with a particular department. Examples include property tax administration charges imposed by the County; museum maintenance support; membership dues for the League of California Cities and ABAG; animal shelter and animal control costs; utilities cost not associated with a particular department; employee training programs; and the employee assistance program. The Non-Departmental budget includes a \$150,000 contribution to the library (allocated from Measure I revenues).

BUDGET HIGHLIGHTS

The proposed FY19/20 budget includes \$255,000 for the Motorola radio system contract and the maintenance of the Butcher road tower site lease, and \$250,000 in County property tax administration fees. The animal services budget of \$1,100,000 includes the City's \$90,000 capital improvement contribution as well as \$676,000 for shelter services and \$334,000 for animal control. The approximately \$5 million total capital cost for the shelter was amortized over 15 years and is spread to the cities and County based on their pro-rata share of facility use.

The one-time budget of \$760,550 includes funding for deferred maintenance projects, primarily at the Aquatic Center, as well as other City facilities and matching funds for grant awards. The Non-Departmental budget also includes over \$230,000 in memberships and contributions to various organizations including the Downtown Vacaville Business Improvement District (DVBID), the Vacaville Museum, Solano Economic Development Corporation and the Small Business Development Center, as well as the Travis Community Consortium and the Local Agency Formation Commission.

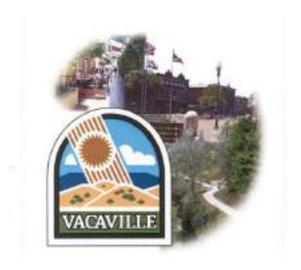

The FY19/20 budget includes the transfer of \$2,280,000 for General Fund vehicle and equipment purchases. The purchase plan is being evaluated by Fleet staff and the City Manager's office.

INTERNAL SERVICE FUNDS

GENERAL LIABILITY AND WORKERS' COMPENSATION SELF-INSURANCE PROGRAMS

The City's various property and casualty insurance programs are consolidated into one Internal Service Fund. This fund includes the following insurance coverages:

- General and Automobile Liability;
- Automobile Physical Damage;
- All-Risk Major Property (excluding flood and earthquake);
- Boiler and Machinery, and
- Crime/Faithful Performance of Duty;

Most of the above insurance coverages are obtained through the City's participation as a member of the California Joint Powers Risk Management Authority (CJPRMA).

The City provides workers' compensation benefits to injured workers in accordance with the State of California Labor Code. The City is self-insured under a certificate of consent issued by the State of California Department of Industrial Relations. The City pays for the first \$350,000 of any one occurrence. The City obtains excess workers' compensation coverage through its participation in the Local Agency Workers' Compensation Excess (LAWCX) Joint Powers Authority.

The costs incurred for these insurance programs are allocated to departments through internal service charges. Workers' comp charges are based on a percentage of salary. For FY 19-20, workers' comp charges are being reduced to a range from 2% - 7% of salary, depending on job classification, averaging about 4% of payroll.

Data on reserve funding and estimated long-term liabilities are shown below:

	Estimated 6/30/2018	Estimated 6/30/2019	Estimated 6/30/2020
Long Term Claims Liability:			
Workers' Compensation	\$4,694,000	\$4,694,000	\$4,694,000
General Liability	1,614,000	1,614,000	1,614,000
Total Long Term Liabilities	\$6,051,000	\$6,308,000	\$6,308,000
Reserve Funding:			
Workers' Compensation	\$3,673,609	\$4,460,957	\$3,461,022
General Liability	2,523,262	2,425,192	1,859,265
Total Reserve Funding	\$6,196,871	\$6,886,149	\$5,320,287
Percent Funded:	98%	109%	84%

Overall, long term liabilities have been relatively stable over the past several years for both general liability and workers' compensation. The percent funded represents the amount of funding available to meet the reserve requirement.

RETIREE AND OTHER BENEFITS

This fund is used to account for two types of expenses per existing labor agreements: (1) retiree medical insurance benefits, (2) payment of accrued and vested leave balances to employees who are retiring or otherwise leaving City employment. In addition, a budgeted amount for citywide unemployment costs is included, as needed. Costs incurred for this program are allocated to departments through internal service charges, based on a percentage of payroll. Costs have been increasing steadily due to increases in health care premiums and a growing retiree population. However, as the payouts for the vested leave balances have been less than budgeted in the last year, a portion of the projected FY19/20 costs will be paid using fund balance. The internal service charge this year is budgeted at 8.31% of salary costs.

With respect to retiree medical benefits, the City has an unfunded liability related to future benefits payable to existing retirees and employees. The liability can be reduced substantially by "pre-funding" the obligation to pay medical benefits the same as we do for retirement benefits. Under a policy adopted by the City Council, contributions to the Other Post Employment Benefits (OPEB) liability have been defined and will be made separate from the calculation described above.

PRINTER/COPIER INTERNAL SERVICE FUND

The City has a large fleet of printers and copiers throughout its operations. Copiers are leased from Ricoh, while printers are purchased. The City has a management contract with Ricoh which includes the lease costs, print costs based on our usage, and labor to maintain the machines. The printer fleet includes a wide variety of models ranging from new to over 15 years old. Parts are difficult to find to repair the older models, and a large inventory of supplies is necessary to maintain the many different types of machines. In order to standardize the fleet and simplify the types of supplies needed, an internal service fund has been established. A small set of printer models has been selected that would meet the various operational needs throughout the City. A ten-year replacement cycle has been established and funds are being collected from each department to replace the machines as they come due, similar to the tech fund replacement of computers. This ISF also includes the cost of the management contract with Ricoh.

TECHNOLOGY REPLACEMENT FUND

Information technology is an essential and integral part of City operations and services. As its role has grown, so has the need to maintain the hardware and software that is critical to the organization-wide technology infrastructure. Based on the recommendation of the Information Technology Steering Committee (ITSC), an internal service fund for technology was established in FY 05/06. Included are servers and desktop computers (based on a 5 year lifespan), network devices, and software licensing for citywide applications. Through this replacement mechanism, the organization benefits from consistent availability of mission-critical technology, improved data security, increased staff efficiency, and greater accessibility to current versions of software applications. Costs are allocated to department operating budgets through internal service charges based on number of desktop computers and the applications that reside on each server.

The beginning fund balance for FY19/20 will be approximately \$1.7 million. Work will continue towards reducing hardware, as applicable, as part of the IT division's Energy Efficiency Program. The Division's goals also include continued work on wireless connectivity at remote sites as well as implementing the budgeted radio replacement.

CENTRAL GARAGE AND FUEL STATION

Central Garage services for City vehicles and equipment are provided through the Public Works Department. Departments are charged for actual work performed on their vehicles, on a time and materials basis. Based on a thorough review of the services and the efficiency of the Garage in providing them, the chargeout rate is \$100 per hour, which is below market costs. A mark-up on parts and outside services is also assessed to partially cover overhead costs. In FY19/20, the operating account budgets include an assessment of a fixed overhead amount that is allocated based on three year workorder histories. A fuel and compressed natural gas (CNG) station is also operated at the Central Garage.

VEHICLE AND EQUIPMENT REPLACEMENT FUND

This internal service fund is used to replace existing vehicles, including police patrol cars, sedans, vans, and pickups, as well as other rolling stock such as tractors, trailer-mounted pumps and generators, and gators. Excluded are ambulances and major fire apparatus, which are on a lease-purchase program. Balances are tracked by the contributing funding source.

The FY19/20 budget includes the transfer of \$2,280,000 from the General Fund to the equipment replacement fund. Of that transfer, \$2,000,000 is Measure M funding. The purchase plan for these funds centers on replacing those units which meet certain criteria based on mileage, years of use, and maintenance costs.
