

I am a lifelong resident of Vacaville and I care deeply about our City. I want our community to remain a quality place to live and residents to feel safe and secure. It is imperative that District 3 has a strong representative who will stand up for their best interests and I am that Candidate.

Revitalizing neighborhoods, supporting local businesses and strengthening programs for our youth and seniors are my highest priorities. I am equally committed to financial responsibility and transparency. Public outreach and engagement is essential to give everyone a voice in decisions that impact them.

I have proven myself to be a tenacious advocate for my neighborhood and when the controversial tiny shed project was planned for our city, I fought tirelessly and successfully to stop it.

I am appointed to several committees focusing on improving hospital patient care experiences; have received an Elks Lodge Humanitarian award for senior outreach; coached youth sports and advocated for Markham Elementary families.

My fiancé Jesus (Tony) and I are starting our family in the same home that my Grandparents bought 60 years ago – we're here to stay.

With your Vote, I'm ready to be your Voice.
