NOP, NOP Distribution List, and
NOP Comments

2019049003

**CITY OF VACAVILLE
NOTICE OF PREPARATION (NOP)
GREENTREE PROJECT ENVIRONMENTAL IMPACT REPORT (EIR)**

COMMENT PERIOD: April 1, 2019 through May 3, 2019.

*All persons and public agencies are invited to submit written comments
as to the scope and content of the EIR.*

The City of Vacaville will prepare an Environmental Impact Report (EIR) for the Greentree Specific Plan and Development project. The EIR will examine potential project impacts not considered in the program EIR prepared for the General Plan, consistent with CEQA Section 15168. The program EIR for the General Plan was certified in August 2015.

Project Description and Location

The Greentree Specific Plan and Development project (Project) proposes to redevelop a former golf course into a mix of a commercial, residential, and park/trails uses. The Project includes an age restricted residential community with private park, standard residential uses consisting of a variety of housing styles, pedestrian connections by trails and landscaped corridors throughout the site, and new roadway connections for better circulation. The project also include a series of detention basins and a public neighborhood park. The Project is located on a 164-acre site west of Leisure Town Road, bisected by Sequoia Drive. The proposed project area is within city limits adjacent to existing residential development. Attachment 1 is the proposed concept plan of the project site.

Key project features include:

- ◆ 203 age-restricted single-family detached homes (Residential Low Density)
- ◆ up to 1,091 of detached or attached single-family or multi-family homes (Residential Medium Density, Residential Medium-High Density, and Residential High Density)
- ◆ 131,938 square feet (approx.) commercial space (General Commercial)
- ◆ minimum 6-acre (approx.) public neighborhood park site
- ◆ 2.6 acres (approx.) private park site
- ◆ 6 detention basins throughout the site
- ◆ 9 acres (approx.) Trails and pathways throughout the development that will connect the development, parks, commercial area, and detention basins.
- ◆ Improvements to Leisure Town Road, Poplar Drive, Sequoia Drive, and Gilley Way: The project would include street improvements and landscaping for a portion of Leisure Town Road. Street improvements will include widening Leisure Town Road to be consistent with the Jepson Parkway Plan.

The project will require approval of General Plan Amendments, Specific Plan, Zone Change, Development Agreement, Tentative Map, Planned Development, Design Review for Apartments on Gilley Way, updates to service master plans, and other related development approvals.

Environmental Effects: The EIR will address the potential environmental effects of the project that were not considered in the General Plan Update EIR. Such effects may include significant effects related to air quality/greenhouse gas emissions, biological resources, cultural resources, hazards, hydrology/water quality, land use compatibility, noise, traffic and circulation, and utilities/public service systems.

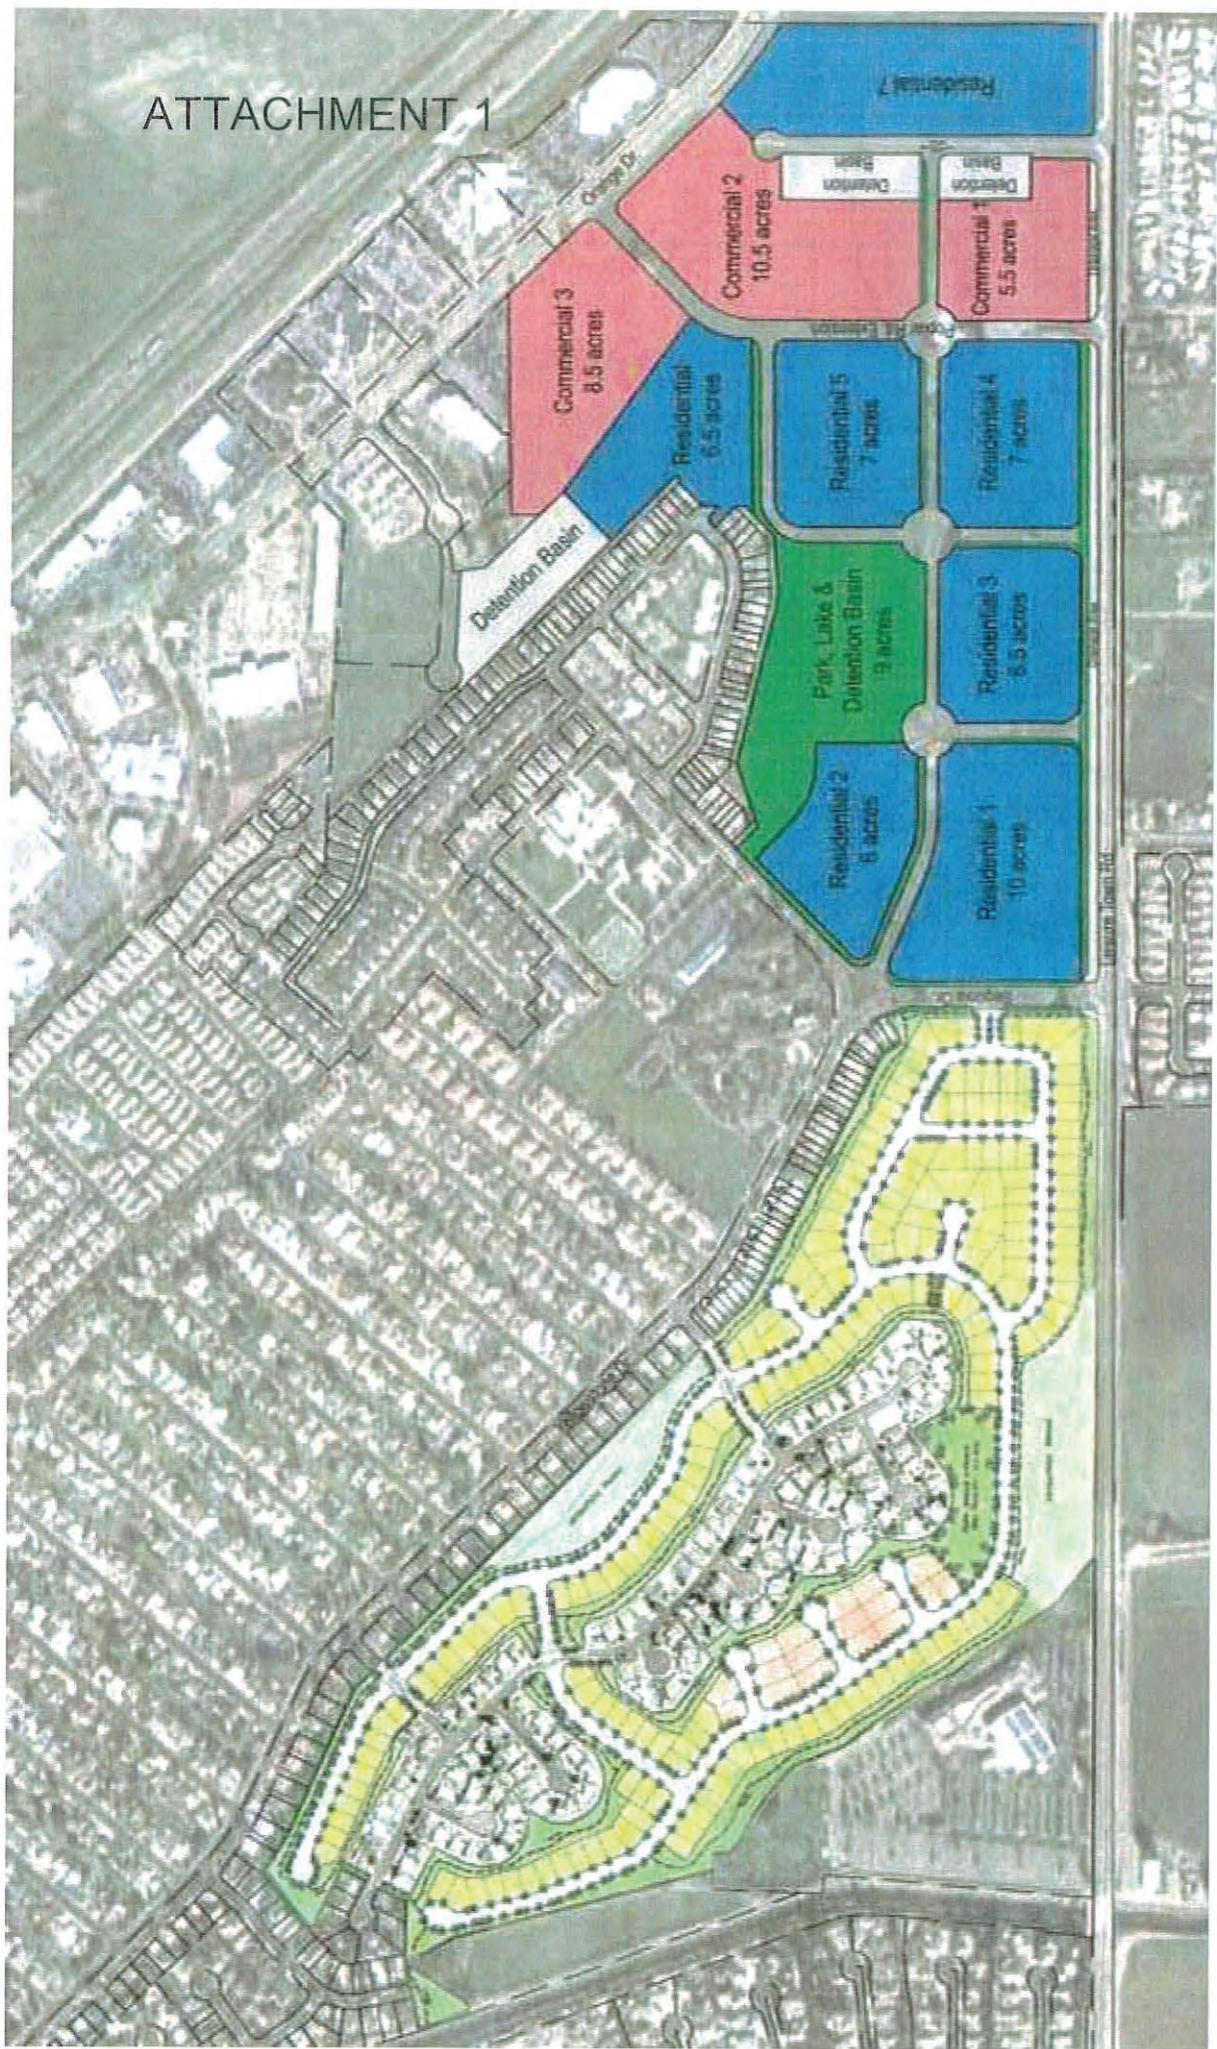

Send your comments to: Christina Love, Associate Planner, Planning Division, 650 Merchant Street, Vacaville, CA 95688, or email Christina.Love@cityofvacaville.com. Ph:(707) 449-5374

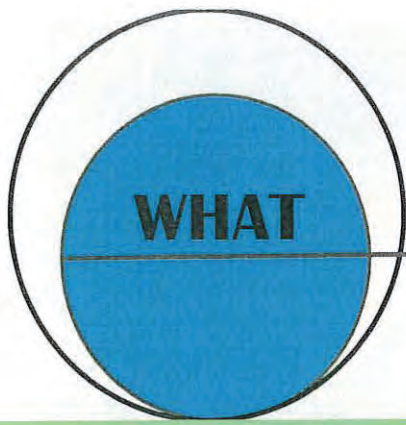

PUBLIC SCOPING MEETING: The City Planning Staff will hold a Scoping Meeting to solicit public comment on the scope of the environmental issues to be addressed in the EIR.

Meeting Date/Time: Thursday, April 25, 2019; 3 pm – 7 pm

Meeting Location: Leisure Town Homeowners Association Town Hall Center,
100 Sequoia Drive, Vacaville, CA 95687

ATTACHMENT 1

PROJECT OPEN HOUSE

Proposed Project Greentree Specific Plan & Development

City Planning staff will hold an open house to hear and receive your comments on the proposed Greentree Development Project.

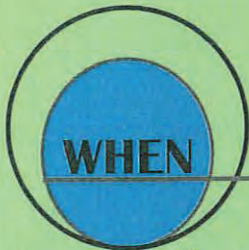

The City of Vacaville will also prepare an Environmental Impact Report (EIR) for the project to examine potential impacts on the environment.

More information available at: <http://bit.ly/GreentreeProject>

All persons and public agencies are invited to submit written comments on the project and the scope of the EIR.

GREEN TREE GOLF COURSE REVISED PRELIMINARY PROJECT DESCRIPTION

March 26, 2019

Background

This revised preliminary project description summarizes key elements of the Green Tree Conceptual Site Plan and a land use summary for that plan, summarizes proposed General Plan land use amendments, and identifies presumed entitlements for the project. It is assumed that this description will be included in the NOP and used by the City to describe the project until such time as a specific plan is submitted. Green Tree Properties, LLC and Green Tree South, LLC own the approximately 164-acre project site. Together they are considered the project applicant.

Concept Plan Summary

The applicant team has collaborated with City staff over time to evolve a concept development plan for the project site. The results of that collaboration are illustrated in Figure 1, Green Tree Conceptual Site Plan. Both City staff and the applicant team have provided a range of inputs for consideration in the concept plan development process. Both have conducted analysis and made recommendations for use types, use relationships, circulation patterns, residential densities and product types, commercial end use types and parcel size needs, public and private recreation amenities, etc. Taken together, and further informed by input from the City Council from residents residing in neighborhoods located adjacent to the site, the recommendations were used to craft a concept plan that is aligned with the needs/desires of the City and its residents. As expressed by City staff and the City Council, desires that can and are reflected at the concept plan, and will be reflected in the forthcoming general plan land use amendments, specific plan, rezoning, and major subdivision application applications include:

- A viable, high quality commercial center that will serve the needs of the surrounding area and attract regional customers;
- A variety of housing of different types and styles not readily available elsewhere, that could include executive housing, townhomes, apartments, and mixed-use units
- Strong respect for the existing neighborhoods. The development needs to particularly respect housing that once fronted a golf course; and

- Strong recreational elements. A number of elements that might be included are trails, parks, natural elements, sports courts, or a senior/community center.

The concept plan shows two distinct types of neighborhoods – active adult detached single-family residential and park/trail uses to the south of Sequoia, and higher density residential uses, commercial uses and public park uses to the north of Sequoia. Brief descriptions of each neighborhood are summarized below.

South of Sequoia - Active Adult (Age-Restricted) Residential Concept

Primary planning considerations for this area include: 1) provide an active adult (age-restricted) residential community and concept; 2) ensure lot size/density compatibility with the existing adjacent residential uses; 3) provide a number of larger “estate” lots to help fill a gap in this type of residential offering in the City; 4) provide open space and recreation amenities for the residents; 5) reserve sufficient land to address storm water management needs; and 6) create a circulation network which is seamlessly integrated with the existing adjacent residential streets. Lot sizes range from about 6,000 to 7,000 square feet. A total of about 203 lots are shown on Figure 1. In addition, per comments and input solicited from adjacent neighborhoods and City staff, all proposed homes will be set back a minimum of 50 feet from existing adjacent homes and be restricted to a single-story in height. A trail/open space network is also provided, as is a 2.6-acre local park with recreation amenities. Common open space, parks, infrastructure and roads will be privately owned and maintained through a new Homeowners Association. The project creates valuable single-family residential development capacity for seniors.

North of Sequoia Drive – Mixed Residential, Commercial, and Public Park Concept

Primary planning considerations for this area include: 1) provide residential land uses at higher densities to enable development of a variety of housing types/products, including workforce housing for local residents; 2) create local-serving commercial development opportunities that expand access to commercial use needs for local residents on the south side of Interstate 80; 3) create regional serving commercial sites that are integrated with and expand on existing regional-serving uses along Orange Drive; 4) provide a nine-acre regional public park that serve adjacent residential areas and vicinity residents and is linked to a 4.2-acre local trail network; 5) establish a grid circulation pattern that creates distinct development areas and improves efficiency of the local circulation network by providing through access for existing adjacent residential and commercial areas; and 6) reserve sufficient land to address storm water management needs. All future proposed subdivision and design plans will be sensitive to existing adjacent neighborhoods.

Projected Development Capacity

Along with proposed General Plan land use and zoning information that is discussed below, Table 1, Green Tree Proposed Land Use/Zoning and Land Use Summary, identifies residential development capacities for each of the two neighborhoods and non-residential (commercial) development capacity for the north of Sequoia neighborhood. Total dwelling unit number for the entire site would range from a low of approximately 1,043 to a maximum of about 1,479 units, comprised of both single-family units and multi-family units. Commercial building capacity for north of Sequoia would be approximately 475,546 square feet. A nine-acre public park and four-acre trail network are planned north of Sequoia, with a 2.6-acre private park and trail network located in the south of Sequoia neighborhood.

Note that for the area south of Sequoia, Table 1 shows a minimum residential development capacity of 203 units. This is consistent with the lotting plan shown in Figure 1, but is below the minimum development capacity per the proposed Residential Low land use designation. The minimum density for this designation is 3.1 dwelling units per gross acre, which would equate to a minimum of 240 residential units for this area. The reduced 203 unit development capacity (below minimum density) is largely attributable to the significant acreage required for storm water detention and for the extensive trail system amenity that cannot be used for residential development. However, the 6,000 and 7,000 square-foot lot sizes are within the range of lot sizes permitted for areas designated Residential Low.

Table 1 Green Tree Proposed Land Use/Zoning and Land Use Summary

Conceptual Site Plan Area	Proposed Land Use	Proposed Zoning	Residential Density (du/acre)			Acres (Gross)	Projected Development Capacity			
			Minimum	Average	Maximum		Minimum	Average	Maximum	Commercial Sq. Ft.
North of Sequoia Residential, Park and Commercial										
Residential 1	Residential Medium	Residential Medium (RM)	8.1	11	14	10.0	81	110	140	0
Residential 2	Residential Medium	Residential Medium (RM)	8.1	11	14	6.0	49	66	84	0
Residential 3	Residential Medium High	Residential Medium High (RMHD)	14.1	17	20	6.5	92	111	130	0
Residential 4	Residential High	Residential High (RH)	20.1	22	24	7.0	141	154	168	0
Residential 5	Residential High	Residential High (RH)	20.1	22	24	7.0	141	154	168	0
Residential 6	Residential High	Residential High (RH)	20.1	22	24	6.5	131	143	156	0
Residential 7	Residential High	Residential High (RH)	20.1	22	24	10.2	205	224	245	0
Commercial 1 ²	General Commercial	General Commercial (CG)		0.3 FAR		5.5	0	0	0	69,260
Commercial 2 ²	General Commercial	General Commercial (CG)		0.3 FAR		10.5	0	0	0	134,600
Commercial 3	General Commercial	General Commercial (CG)		0.3 FAR		8.5	0	0	0	110,078
Park, Lake and Detention	Public Park	Open Space (OS)		N/A		9.0	0	0	0	0
Subtotals						86.7³	840	962	1,091	313,938

Conceptual Site Plan Area	Proposed Land Use	Proposed Zoning	Residential Density (du/acre)			Acres (Gross)	Projected Development Capacity			
			Minimum	Average	Maximum		Residential (du)			
							Minimum	Average	Maximum	Commercial Sq. Ft.
South of Sequoia Age-Restricted (Residential Low Density)										
Residential	Residential Low	Residential Low (RL)	3.1	4	5	77.5	203 ⁵	310	388	0
Subtotals						77.5⁴	203⁵	310	388	0
TOTAL						164.2	1,043⁵	1,272	1,479	475,546

Notes:

Acreage totals are approximate and subject to refinement through future subdivision map process

North of Sequoia:

¹For Residential Area 6, residential development capacity is based on 6.5 acres to reflect that 9.0 acre gross site includes 3.0 acres of detention pond

²For Commercial Areas 1 and 2, building capacity is based on gross acreage that includes their respective detention facilities

³Trail, detention, drainage area and roads are included in the gross acreages of the respective blocks in which they're located.

⁴Trails, 2.7-acre park/boocoe & pickle ball facility, detention, and roads are included in the south of Sequoia gross acreage

⁵The minimum residential unit number is based on the lotting plan shown in Figure 1. If it is below the minimum of 240 that would otherwise be required per the minimum density for the Residential Low land use designation. Please see the associated project description text for more information.

Anticipated Entitlements

The applicant anticipates submitting an application package that includes the entitlement requests summarized in Table 2, Anticipated Entitlement Requests.

Table 2 Anticipated Entitlement Requests

South of Sequoia	North of Sequoia
General Plan Amendment (Text and Map) Master Plan (Specific Plan) Green Tree Park Policy Plan Amendment	
Rezoning (Zoning Map and Potential Text)	Rezoning (Zoning Map and Potential Text)
Major Subdivision (Tentative Map)	Major Subdivision (Tentative Map)

The applicant will coordinate with the City to verify these entitlement requests and to ensure clarity on the entitlement application contents needed to support them.

General Plan Land Use Amendment

The project site carries General Plan land use designations of Commercial Highway and Private Recreation. These designations would be amended consistent with the proposed General Plan land use designations shown Table 1, Green Tree Proposed Land Use/Zoning and Land Use Summary, and in Figure 2, Proposed General Plan Land Use Map. In addition to amending General Plan Figure LU-6, General Plan Land Use Designations, a series of targeted amendments to General Plan text, tables, and other figures will be needed.

Specific Plan

A specific plan will be prepared which meets California Government Code content requirements (sections 65450 et seq.) as well as content requirements contained in Chapter 14.09.112 of the City Zoning Ordinance - Land Use Permits and Approvals, Specific Plans and Policy Plans. Inputs desired by the City will also be considered in coordination with City staff. The document will contain the following main chapters as may be modified in coordination with City staff:

- Introduction, Background, and Purpose
- Land Use, Development Standards, and Design Guidelines
- Mobility (complete streets planning, street sections and vehicular access, non-motorized mode planning, transit planning, etc.)
- Parks and Trails

- Infrastructure and Public Facilities (water, sewer, storm drainage, public works facilities plans, phasing, maintenance)
- Plan Implementation (CEQA, plan amendments, subsequent approvals, etc.)

Rezoning

Table 1 also shows proposed zoning designations that implement the respective proposed General Plan land use designations. Planned Unit Development zoning is assumed for the areas both north and south of Sequoia. The specific plan will be the tool to implement the Planned Unit Development zoning.

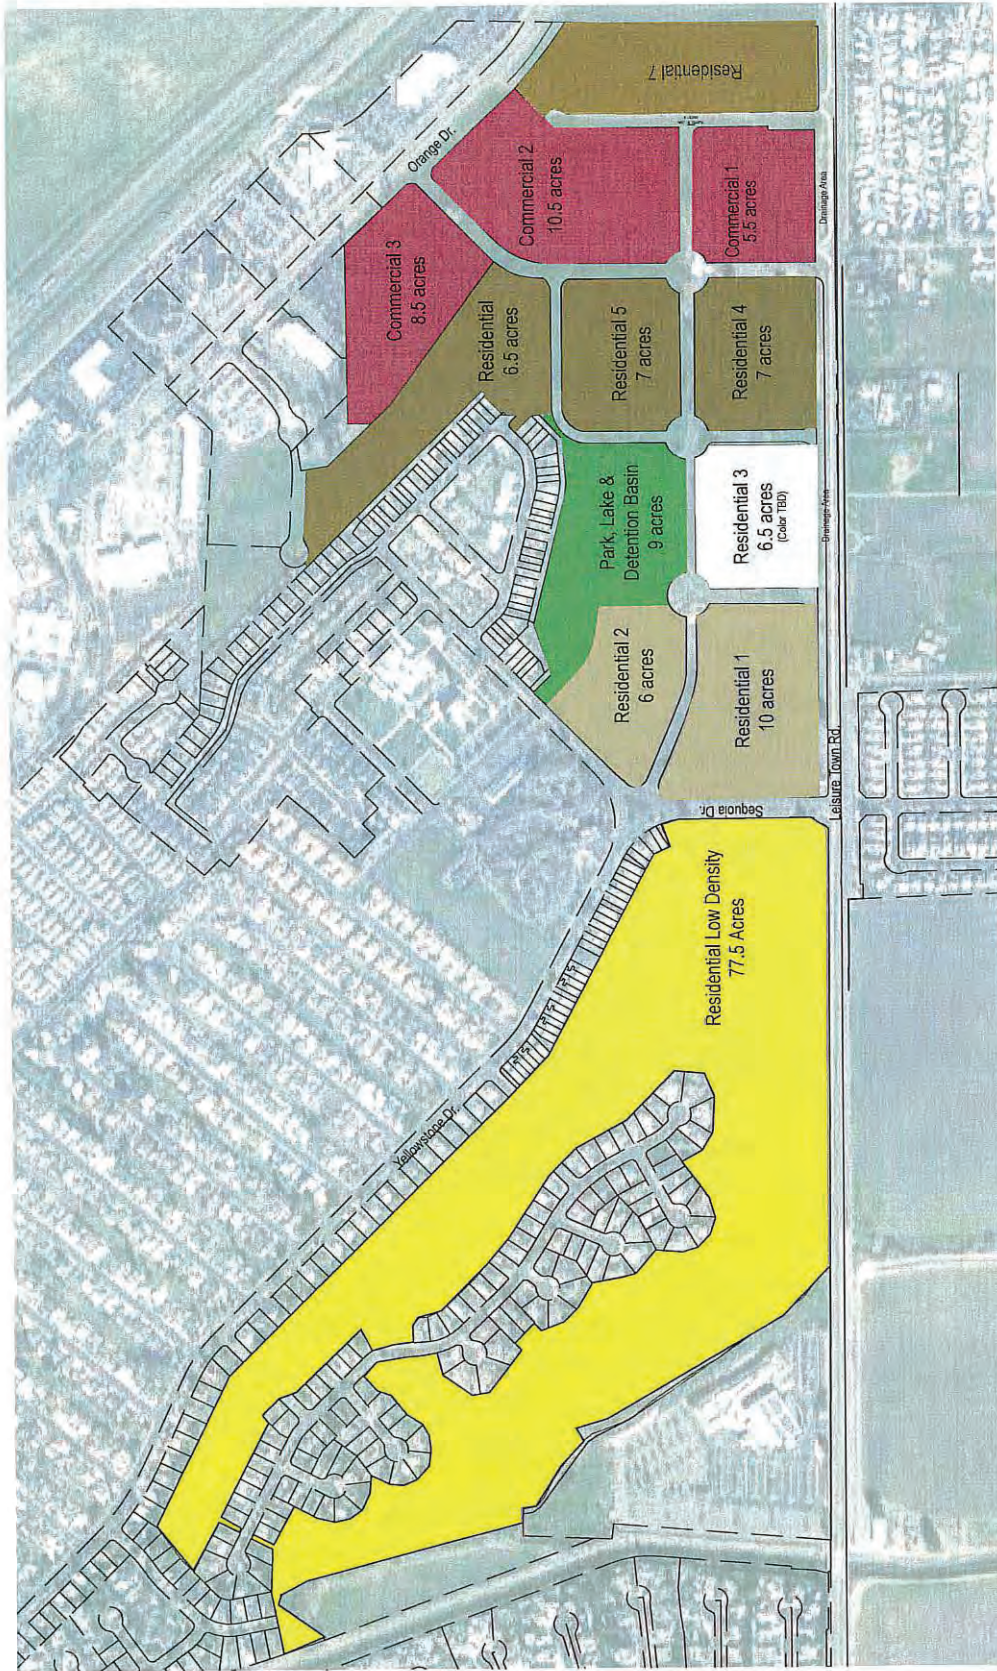

Major Subdivision

North of Sequoia Neighborhood

A major subdivision approval would be requested to divide this neighborhood into a series of residential blocks, commercial blocks, a park, and associated infrastructure (e.g. detention basins) consistent with the uses shown in Figure 2, Proposed General Plan Land Use Map.

South of Sequoia Neighborhood

A major subdivision approval is also needed for the south of Sequoia neighborhood. This neighborhood would be subdivided into approximately 203 residential lots and additional lots containing infrastructure (e.g. detention ponds) and park uses.

Legend

- Residential Low Density (3.1 - 5 units/acre)
- Residential Medium Density (8.1 - 14 units/acre)
- Residential Medium High Density (14.1 - 20 units/acre)
- Residential High Density (20.1 - 24 units/acre)
- Public Parks
- General Commercial

Note: Residential 3 has a proposed designation of Residential Medium High Density. The current city GP Map does not have a color for this density.

*****ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS*****

We do not want another
2000 people living in Leisure
Town!

Leisure Town was zoned recreational.
It should remain as such.

Make a right turn only from
Street "B" to Leisure Town so
in emergency everyone can get
out safely.

All traffic should be routed
out of Leisure Town — not into
Leisure Town via Yellowstone.

*****ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS*****

My house is on Muir Ct in Golf Course Estates. It looks like there will be several homes backing up to my house with 50' green space between. I don't want to see 2-story homes behind me where neighbors will be looking into my house and yard. I also would like to see age-restricted housing. Leisure Town is a 55+ community. No one will want screaming kids, teenagers with loud music or loud cars, etc. I hope you will take these concerns seriously.

To reiterate:

Single story and age restricted home only. As much green space as possible for privacy.

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

I live on Poplar Rd and currently often have issues turning left or right on Leisler Town Road even with planned widening. This road can not handle increased traffic that proposed project will add to Leisler Town Road. Need to find other options for development that reduce traffic volume. I am opposed to current higher density plans.

Laura Dennis

5160 Poplar Rd

Vaca 95687

707 592-9070

BLUESKIER@SBCGLOBAL.NET

Also we don't need another car wash / car station on Leisler Town Road. Another car wash is already under construction.

What happens to mixed low density / development plan? Current 6 acres next to flood basin is not recommended use as it will likely be flooded 6 or more months a year.

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

① Yellowstone Drive

Ⓐ Do you have another detour from Yellowstone?
(to have less traffic)

Ⓑ More traffic on Yellowstone will interfere with the residents trying to enter their drive way and the residents that live on the circles won't be able to make a left turn from north to Yellowstone.

Ⓒ is there a plan to widen Yellowstone

Ⓓ The traffic will drive down property values in Leisure Town

Ⓔ no traffic on Yellowstone for the new development, entrances from Leisure Town Road & left

Flooding Ⓐ on circles will this be solved.

Ⓑ will detention basin have a flood gate that will prevent flooding

Homes adjacent to golf estates should be 5000 custom similar in design and be 55 or over

Thank you sandy Bell

To: the city of Vacaville

from: Joan Sheehan & Albert Yonan, Leisure town residents

Joansheehan01@gmail.com 4-25-19

Re: Golf course development

Thank you for taking time to listen to our LT, Leisure town community.
Here are a few of my concerns.

1. I request the path connection on Grand Canyon be closed so the Syar community does not have access to our cart path. I see this as a real problem where it can become a bike path for families. Many LT residents walk there and some even have walkers. Ideally, I would like our areas be kept separate. Initially, Syar had a proposal where all the paths would connect and we would be able to go in and out of each other's property. That plan has been eliminated. I believe most LT residents want to keep our community separate from the Syar property, as LT is an active adult community.
2. I would like a fence be built between the 2 communities. This would give LT more privacy.
3. I request single story homes near our LT homes.

Thank you.

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

Parks + Trails - Syar cares little about 55+ section south of Sequoia. There are no substantial parks for those of us that ~~live~~ he is taking land to put in dense 55+ houses. This is wrong. Syar hasn't really talked to us 55+ folks and he is trying to push his concept of the land grab. The City should require him to talk directly to us and not pretend he has done so with the City. More actual parks need to be incorporated south of Sequoia - Not just nice sounding trails but actual sit down parks people can enjoy or play cards or just meet-sit and talk.

Syar - Must be held accountable to Leisure Town residents. So far he has dodged us and we expect the City to change his attitude.

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

- ① The influx of residents is too large.
- ② There are no direct links to Revere Town Road, thus forcing traffic onto Yellowstone Drive.
- ③ Nine acre park is too small. The 6.3 acres, 7 acres, and 5 acres around the proposed park should be added as park and recreation, at a minimum. Direct access from the park to Revere Town Road is unclear, but necessary.
- ④ Who moved the burrowing owls on Gilley Road, and who authorized it?
- ⑤ Originally, the land use was proposed at 52% for residences, 39% categorized as park, recreation and open space. (This also includes Town Center.)
Now the land use seems to be just "money, money, money, money" for Sycar and growth surge for Vacaville.
- ⑥ People moved to Revere Town for its peaceful environment and amenities. This goal needs to be respected by the city and Sycar.

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

I've lived in Vacaville for the better part of 39 years. Recently, I have heard some talk of putting tuff sheds up for homeless (what good will that do?) ~~By~~ But about Leisure Town, I live on a street that won't be "too" affected by the changes other than the fact it will probably become a hassle to drive around here. We will be landlocked in my opinion. What I don't understand is this city seems to be somewhat concerned with the homeless problem but not at all concerned about the seniors in the town who have, for so many, lived in Vacaville for their lives. I never did get why the city didn't ^{buy} make the golf course and make it a municipal course. It is right off the freeway. Easy access for people coming off 80. There are some courses making courses with other types of games for kids at certain times of certain days. Too bad the city has no regard for citizenship and every regard for the almighty dollar.

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

PLEASE -

No high density housing behind Grand Canyon

No need for commercial behind Grand Canyon
Instead of Commercial - consider office complex
Where are current proposals?

April 25 open house was falsely advertised
No updated maps for current proposals.

What kind of residential development is proposed at end of Grand Canyon? What are options?
More garden homes, 55+ population would be appropriate and support senior retirement communities. Single story for seniors. How close to existing Grand Canyon homes
Retention ~~and~~ ^{basin} problems? Mosquitoes + drainage.
Please reserve open space around basin - maybe some benches + walking paths

Preserve low traffic of Grand Canyon - do not remove dead end - Protect residential neighborhoods from through-traffic

In order for you to receive viable input, for us to make opinions + our suggestions we need to know different scenarios + options.

Upscale condos + townhomes

GREENTREE SPECIFIC PLAN AND DEVELOPMENT COMMENT CARD

April 25, 2019 Open House and EIR Scoping Comments

We are looking for your comments, questions, and input related to the proposed project to redevelop the former golf course into a mix of residential, commercial, and parks/trails.

Please write your thoughts below and drop this sheet off in the collection box before your leave. Or you can mail it to Christina Love, Associate Planner at 650 Merchant Street, Vacaville, CA, 95688. You can also email comments to Christina.love@cityofvacaville.com.

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

Detention basins: How is the capacity of these basins determined? Currently all runoff from Peessee town goes to the Golf course. Has the additional runoff from the proposed residential/commercial areas been included?

Project includes almost 1300. The original proposal only 1100, and the Mayor said they had just removed 1,000 homes from the general plan and didn't want to add 1000 new homes.

Why is the developer closing of Helley way?

That will increase traffic on Peessee town.

I understand the land north of Helley is already zoned commercial. Why does the Developer want to put the commercial use on the south side requiring a zone change?

Who will be responsible for maintaining the detention basins, trails, parks, etc.?

Traffic into the new residences off Sequoia may cause serious problems with traffic on Peessee town and Sequoia

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

move the park or add additional space to all property along sequoia - then no road is necessary going into Leisure Town.

Reduce number of homes. -

move commercial more to the middle beside the parks and put high density housing beside orange drive

COMMENTS
GREEN TREE DEVELOPMENT
WORK SHOP
(April 25, 2019)

- 1) All land south of Sequoia Drive should be restricted to park, recreation and open space due to the Syar commitment for the existing golf course to be “permanent open space” for the adjacent residential use. See the 1962 Syar Study- page 9/10 (www.ltha.org) Press “MORE” and then “HISTORY.”
- 2) All land surrounding Golf Course Estates should be restricted to park, recreation and open due to concessions that were made to Syar during the establishment of the Golf Course Estates subdivisions.
- 3) The residents of Leisure Town should be guaranteed access to all open space, trails, paths, and parks no matter who owns or maintains the property.
- 4) There should be no access road between the new development and White Sands Drive. This public access would destroy the existing peaceful environment of Golf Course Estates.
- 5) Traffic coming onto Yellowstone Drive from the new north portion of Green Tree Development should be kept to a minimum. Even with traffic limited to 25 miles per hour Yellowstone Drive has become hazardous to the current Leisure Town residents. The possible influx of traffic from the proposed development will create a situation unbearable for the senior citizens of Leisure Town.
- 6) The proposed lot sizes south of Sequoia Drive are entirely too small. The new lots in the south portion of the development average 0.14 acres each. The lots in Golf Course Estates average between 0.17 (interior lots) and 0.23 (course fronting lots) acres. In order for the new development lots to be similar to the adjacent GCE lots the proposed lots should be 21% to 64% larger. The proposed lots are too small.
- 7) Why is the Master Plan being changed so soon? Why is ^{the} development being moved ahead of residential developments that were already shown in the last several General Plans?

Bruce & Patti Fisher
Phone (707) 471-8376

Wants a traffic circle @ the intersection of sequoia / yellow stone.

There is a concern about the existing and future speeds on yellow stone.

Want a traffic control device, like a speed hump, to slow down traffic.

We live on Grand Canyon Dr.
We are concern that Grand Canyon Dr.
will be an open street at the end.

We lived on Hanover street for
43 years when our back yard
backed to Nut Tree Rd. It went
from a 2 lane road to a 4 lane
road - WHAT A NIGHTMARE that
was. Why can't you leave Leisure
Town streets as are.

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

- ① No new roads connecting new housing or commercial development to Yellowstone, White Sands or other existing Leisuretown roads
- ② Complete Phase I environmental study, followed by phase II that includes surface soil sampling (4 point composites on 75' centers) analyzed for CAM17 metals, pesticides/PCBs by SW846 method 80816, semi-volatile organics by 8270. Scope of work to be reviewed by selected residents for completeness & technical accuracy, including 10% duplicates + field blanks. All results to be provided to Golf Course Estates Residents.
- ③ Reduce # of houses adjacent to existing Golf Course Estates housing. Increase housing North of Sequoia if needed
- ④ Planning needs to address truck traffic, dust control, hours of operation, seismic impacts to existing homes during all phases of construction
- ⑤ Include the community in all aspects of the planning process
- ⑥ Include more green space in the area adjacent to existing Golf Course Estates homes
- ⑦ WE NEED ALTERNATIVES!

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

Compromise is necessary, however it must weigh in favor of the LT community and Vacaville at large.

① A mix of single family homes & duets for 55+ only. The benefits of this age group are serious considerations; they add to the tax base without burdening schools & less burden to infrastructure.

② Some commercial & retail services

③ Open space & rec land. Vacaville has a stated goal of 4.5 ac of rec land for every 1000 people.

④ Sycar should provide land & participate in the cost of a gymnasium. LT residents & City residents can use, but it would be a huge draw for State & Regional Tournament use as well as City Rec programs.

Please stop ignoring the voices of the people in favor of yet more homes.

Kathleen Pinos

ADDITIONAL NOTICES WILL BE MAILED BEFORE ANY PUBLIC HEARINGS

- County should be involved in the meeting
- Lock Padin was not notified
- want the ^{road} signal at sequoia to be realigned to Maple
- want Leisure Town widened to the west and a frontage road on the east side of Leisure Town Road to allow access for the homes on the east
- Leisure Town from Orange to Sequoia needs to be widened
- There should be a greenbelt running north/south through the project
- There is significant cut through on Poplar's KilKenny
- what is the City going to do rectify the KilKenny/Poplar cut through issue.

EIR for Greentree Project

I am LaVonne Joyce of 131 Inyo Court in Leisure Town. I have lived here since 2010. I purchased my home detrimentally relying on the contract with LTHA, the promises made by Syar that the Golf Course Estates would be encompassed by the Green Tree Golf Course and the City of Vacaville's Master Plan that Green Tree Golf Course was and would be recreational open space, ie., the Golf Course.

I had to pay a premium for my lot on the 5th Fairway. When Syar developed the Golf Course Estates he benefited financially by assessing these lots a premium.

When Syar developed Leisure Town, the homes outside the Golf Course Estates had green strips. Golf Course Estates have none; there was no need with the Green Tree Golf Course. I chose Leisure Town because of the environmentally friendly design. I chose my location because of the golf course and the ecosystem it supported and continues to support.

I grew up in Maine. I am the daughter of the State of Maine's 13th Game Warden. My family were the first settlers in Maine in 1623. We have maintained a residence in the same location for nearly 400 years. We continue to pull lobster pots and have managed the land and the area we have fishing rights to maintaining a healthy and balanced ecosystem on land and sea. We understood then, and now, the importance of renewable resources. We have not strip^{ped} the land for lumber. We adhere to the agreement between lobstermen to throw back shorts, females with eggs and oversized lobster. We never needed an Environmental Protection Agency to impose laws that to Mainiacs were common sense necessary for the survival of future generations.

As I watch in disgust as the city "honors" Willis Linn Jepson, botanist and conservationist, by renaming Leisure Town Road Jepson Parkway, I can only believe Mr. Jepson would have been the first to object to have pavement named in his honor. Pavement that winds through housing developments that will increase green house emissions and traffic. Homes that are being constructed in some of Solano's most fertile agricultural lands and hillsides that have for thousands of years provided ecosystems that allowed flora and fauna to flourish.

As I looked out onto the golf course before the beginning of the destruction now occurring, I saw a refuge for migrating birds and butterflies: swallows, raptors, flickers among others. It was a home to endangered burrowing owls, barn owls, green herons and endangered hawks. For those who see what most don't see in what we all could see if we look carefully, there are garter snakes, a variety of lizards, endangered grey fox, raccoons, opossums and thousands of insects and native flowers.

Mr. Syar chose to close the golf course without first notifying those residents who would be detrimentally affected by the closure which would have given us a choice as to sell or stay. He closed the course as the golf clubs that have supported Green Tree for decades prepared for the new season – destroying for many vulnerable seniors an important social and physical

activity they relied on. Many seniors in Leisure Town had purchased their own golf carts. Many could not drive to other courses and have had no way to continue golfing which enriched their lives. The local high school teams were left without a "home field" even as the season began. Employees were not given notice. The city had reviewed the master plan for Vacaville a few months prior to Syar's decision and Syar opted not to participate in asking to change the code to allow him to develop the course for commercial buildings and housing.

Now the City asks that we reward Mr. Syar by approving his circumventing the process all others have had to adhere to; furthermore, the City has made promises to the homeowners in the Golf Course Estates to protect us and clearly has shown that the City has no intention of keeping those promises. I am now speaking of the plan that shows that the City wishes LTHA to approve access to Mr. Syar's property by inserting a road through White Sands. Clearly we have already lost the fight to maintain all of Green Tree Golf Course as recreations – whether it be a golf course, open space or recreational parks and sports fields.

I have watched a health ecosystem, ie., Green Tree Golf Course, slowly being destroyed by greed. Syar has repeated that he wants \$100 million profit for this land. Clearly the City of Vacaville is willing to support this because the City sees increased revenues from the development.

Originally Syar was not allowed to cut any trees unless a biologist/botanist agreed that the tree endangered human lives. No tree could be cut that supported endangered species of any kind. Only two trees were selected for destruction. Syar was allowed to cut the water that the trees depended on relying on some idiot's assessments that by doing so the trees would not be affected. No need to even leave your cars as you drive through LTHA to see that a majority of trees are dead or dying. How proud Mr. Jepsen must be!

I purchased 131 Inyo Court and checked for Flood Zones. Leisure Town is not included in the known flood zones. However, there is clear evidence that the stream adjacent to the Golf Course Estates has flooded. There are retention ponds throughout the golf course. The home at 113 Inyo is on jacks – evidence that the home was underwater and the foundation settled in the mud. Until a year ago, the home at 143 White Sands has had water up to the floor boards and has had to have a sump pump to prevent the rising water from invading the home. French drains have now resolved the problem for that one home.

I have investigated the history of the stream. In the 90's the stream overflowed and water came up to the doors of the homes along White Sands and Inyo court. The long term care facility on Green Tree had to sand bag their facility. If the City allows any construction behind the homes that are adjacent to the "back nine," the residents should be aware that simply filling in what appears dry uneven land is a dry stream bed. Nature always wins. Should the rains be significant, the stream will re-appear. The basin which is the 5th fairway will not cease to be a streambed simply because the City may allow it to be filled in and buildings constructed.

Humans are arrogant in thinking they can control nature. Simply look at the Mississippi River, the constant flooding of the homes adjacent to the Napa River along Highway 37 and Highway 29. No matter how dry the land appears in times of drought, when the rains return, nature reclaims her power to fill the old wetlands and stream beds. LTHA, the Golf Course Estates is built adjacent to a stream bed that has and will return.

In the meantime, as the City and Syar plan, the course is returning to Wildland. It doesn't take Nature long. The cart paths are nearly destroyed. Wildflowers are replacing the fairways. However, because homes were developed and now exist, it is wildland that must be controlled – not with commercial and residential housing and pavement. There is no reason why the land couldn't be maintained as a walking golf course – especially in the fingers and homes adjacent to what was once the course. A course designed as a par 3 much in the design of courses in Nevada, Utah, New Mexico and Arizona could support the native plants and wildlife with little maintenance. There could be extremely narrow fairways and small greens. The fairways could be inside protected landscaping that would require little maintenance and little water.

While no action is taken and we continue useless bickering and endless studies which will be ignored for profit, the residents adjacent to the wildland are now subjected to further damage to their properties and health. Too expensive to water and mow, the land has been poisoned, starved of water for the trees and now disked. The dust and pollen are invading our landscaping. My yard was planned as low/no maintenance. It is now overrun by the weeds blown in from the course. My fence is now collapsing in places the disk has been run too close to the line and the rains have soften the land. I have breast cancer, a c-spine injury and a fixed income and have no intention of attempting a lawsuit which will only take more of my time and likely to cost more than any restitution I might receive.

I have been detrimentally affected physically, socially, emotionally and financially by the lack of enforcement to the rules of development that the City has allowed, is allowing, Syar to circumvent. The LT Home Owner's Association to which I pay dues has all but abandoned the Golf Course Estates. Most of the homeowners outside the Golf Course Estates have shown no interest in any of the hearings. Perhaps they missed the English lesson on the "Hangman."

If the EIR is not just another useless report to try to justify the destruction of this ecosystem, then there is hope. Should the City and the EPA decide to cut a road through White Sands and dump traffic into an already heavily trafficked housing development of Senior and Disabled Citizens and allow the complete destruction of this ecosystem filled with CA native plants, insects, flora, fauna and migratory birds and local birds, it may be time for the non-violent civil disobedience. Should I block the destruction physically by refusing to move for the construction crews, what is the worst you can do to me? Throw me in jail, pay for my meals and health care and give me a quiet room without any concerns might not be the worst thing that could happen to me. I love to read. I love to write. I'm tired. I have buried nine friends since June. I haven't seen my brother since 1986. I have one sister left who rarely visits – she is handicapped. However, she continues after 43 years to volunteer with Special Olympics. We are a people of Faith and by Grace, I am still here.

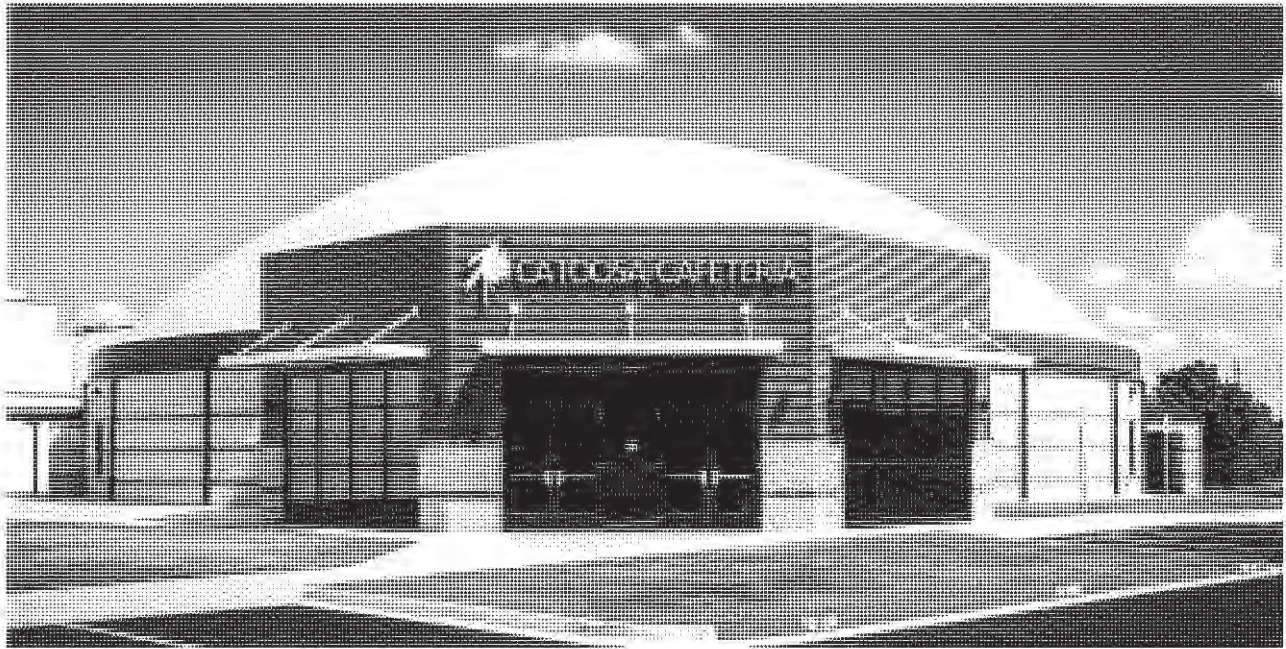

As your committees meet, ask - Do you have kept your oath to serve and protect the least of us - the elderly, the disabled, the poor, the underinsured, ^{those who have sacrificed family and friends} - especially those who were original owners who ~~have~~ ^{who} relied on the promises made, and all who were not given the courtesy of ~~also~~ ^{also} demanding that Syar

New cafeteria dome provides shelter in tornado area

A new Monolithic Dome now stands on the school grounds where a tornado came tearing through 23 years ago. Catoosa, Oklahoma, a suburb of Tulsa, was the site of a F4 storm in 1993 that killed seven people and injured many more. Thanks to a new Monolithic Dome, people at the school can now feel safe from another such storm.

Why a Monolithic Dome Fertilizer Blend Plant?

What's a fertilizer blend plant's number-one enemy? Moisture! If water gets

News

Judy Lynne Bates South, 1940-2019

It is with great sadness that we announce the passing of Judy Lynne South — loving wife of David B. South and beloved mother of ten. She died in Waxahachie, Texas, on Monday, February 25, 2019.

Animals—and people—sheltered in dome during Hurricane Michael

into or condensation forms inside a storage unit, it quite quickly begins degrading the fertilizer and forming rust. But Monolithic uses a technology that keeps that troublesome process to a minimum.

What You Need to Know about a Monolithic Dome Home—Before You Buy One!

It's new! Here's a must-have, must-read **ebook** with

down-to-earth information on just about anything and everything that has to do with designing and building your dream home.

Monolithic Floor Plans

For your dream dome-home, our library includes floor plans in a wide variety of sizes and shapes. That size-range includes small, cozy cottages, as well as spacious and spectacular castle-like domains and everything in between. But while sizes and shapes may vary, the benefits of a Monolithic Dome home remain constant. In addition to long-range savings, our very green Monolithic Domes provide energy-efficiency, disaster protection and more. This website has tools and hundreds of articles related to dome design. In addition, our staff includes professionals with experience and expertise that can help you design the exact floor plan you want and need.

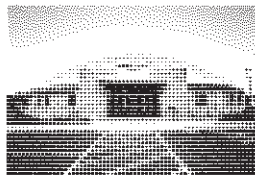

Monolithic Dome Builders

Forecasts predicted Hurricane Michael would land in Panama City as a strong, but still manageable, Category 3 hurricane. Employees of the Humane

Society of Bay County — along with their families, friends, cats, and dogs — spent the day preparing to ride out the hurricane under the protection of their Monolithic Dome. As everyone settled in for the night, no one expected anything too severe. Then Hurricane Michael intensified into the strongest hurricane to ever hit the Florida panhandle.

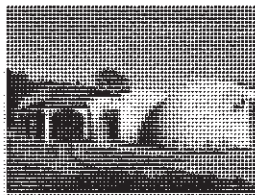

The Vanguard School charts K-12 education in new Monolithic Dome

Facing west toward the Front Range of Colorado's Rocky Mountains, The Vanguard School in Colorado Springs provides a dramatic foreground thanks

to its royal blue sports field and the dome structure situated nearby. The 20,000-square foot Monolithic Dome houses twelve classrooms and two science labs for the school's 215 seventh and eighth graders. "It looks cool," says student Ciera. "A lot of people see it and wonder what that thing is and I get to tell them it's the junior high building!"

Letter: Margaret tells her story of riding out Hurricane Michael in a Monolithic Dome home

I was not a bit afraid during Hurricane Michael. A South Florida newspaper said there were sustained winds of 185+ mph and gusts of 201 mph. I believe that as I watched the neighbor

house explode and saw trees twist and fly apart. Debris pounded the dome viciously. My hurricane windows were fractured but held so no rain entered.

Workshops

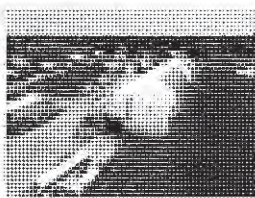

A Monolithic Dome Workshop is a combination of hands-on training and classroom instruction. Equal time is given to studying dome construction principles in a classroom setting and to applying those principles by actually building a Monolithic Dome.

Hurricane Michael smashes power transformer into Monolithic Dome home

Hurricane Michael smashed a power transformer into Margaret Clayton's caterpillar shaped Monolithic Dome home. The home is a few miles southeast of Mexico Beach in Port Saint Joe, Florida. Clayton stayed in her home during the hurricane. Everything was going well — until her neighbor's house exploded.

The mud couldn't keep dome fans away from the 2018 dome tour

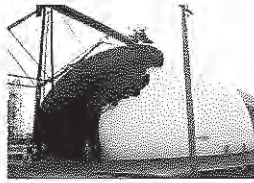

Hundreds of dome fans toured the Monolithic Dome Research Park on Saturday, October 20. After weeks of constant rain, the weather turned sunny, and it was a beautiful day. Even the with all the mud and standing water, people toured the offices, shops, and Bruco: The Texas Italian Caterpillar.

No word yet from dome owners hit by Hurricane Michael

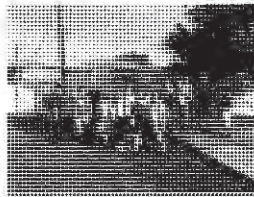

We haven't reached any dome owners in the area hit by Hurricane Michael. The city manager of Panama City Beach, Florida, was on NPR this morning talking about the damage. He said his city fared okay, but the area around Mexico Beach — east of Panama City Beach — was devastated. Widespread power failures, destroyed cell towers, and damaged infrastructure is making communication difficult.

Fire safety comes standard, no sprinklers required

Years ago, a late night fire started next to a 10,000-ton urea storage in Channelview, Texas. It consumed three wood structures built against the Monolithic Dome. Over 300 gallons of transformer oil fueled the blaze. For an hour, strong winds blew the inferno directly over the dome.

Different location, same great workshop for Fall 2018 attendees

There are so many domes around the Monolithic Dome Research Park that for the first time the Monolithic Dome Builders Workshop was held out-of-town — mostly. Over 20 students attended the Fall 2018 workshop. They built two, 20-foot diameter domes and one concrete-only Ecoshell in nearby Dawson, Texas.

Colorado dome home visit by dome fan

Dome fan, Harry Maldonado, shared this video of his recent visit to a monolithic dome home in Colorado. We believe this home was constructed by Mert Hull near Colorado Springs.
