 - a. No permit shall be issued or use established on the subject site unless the Director determines that the subject of the appeal would not affect the construction or operation of the project as approved;
 - b. If an approval is modified by a subsequent appeal, the project shall be redesigned or altered to be consistent with the required change;
 - c. If a permit is issued prior to an appeal being filed and the approval is overturned by a subsequent appeal, all permits issued become void and the applicant shall be responsible for removing any structure or portion of a structure constructed to date.
- B. An appeal to an action by the Director shall be heard by the Planning Commission. The appeal shall be filed with the office of Community Development within 10 calendar days of the Director's action, unless otherwise specified in Table 14.09.072.02 of this chapter.

 - a. New items, not identified on the appeal application form, may only be discussed if the appellant demonstrates to the satisfaction of the decision-maker on the appeal, that:
 - i. The new items are based on information that was not known or readily available at the time the appeal was filed; and
 - ii. The items do not involve issues that could have been, but were not raised at the original hearing.
